

Princes Highway upgrade south of Torrens Street, Blakehurst

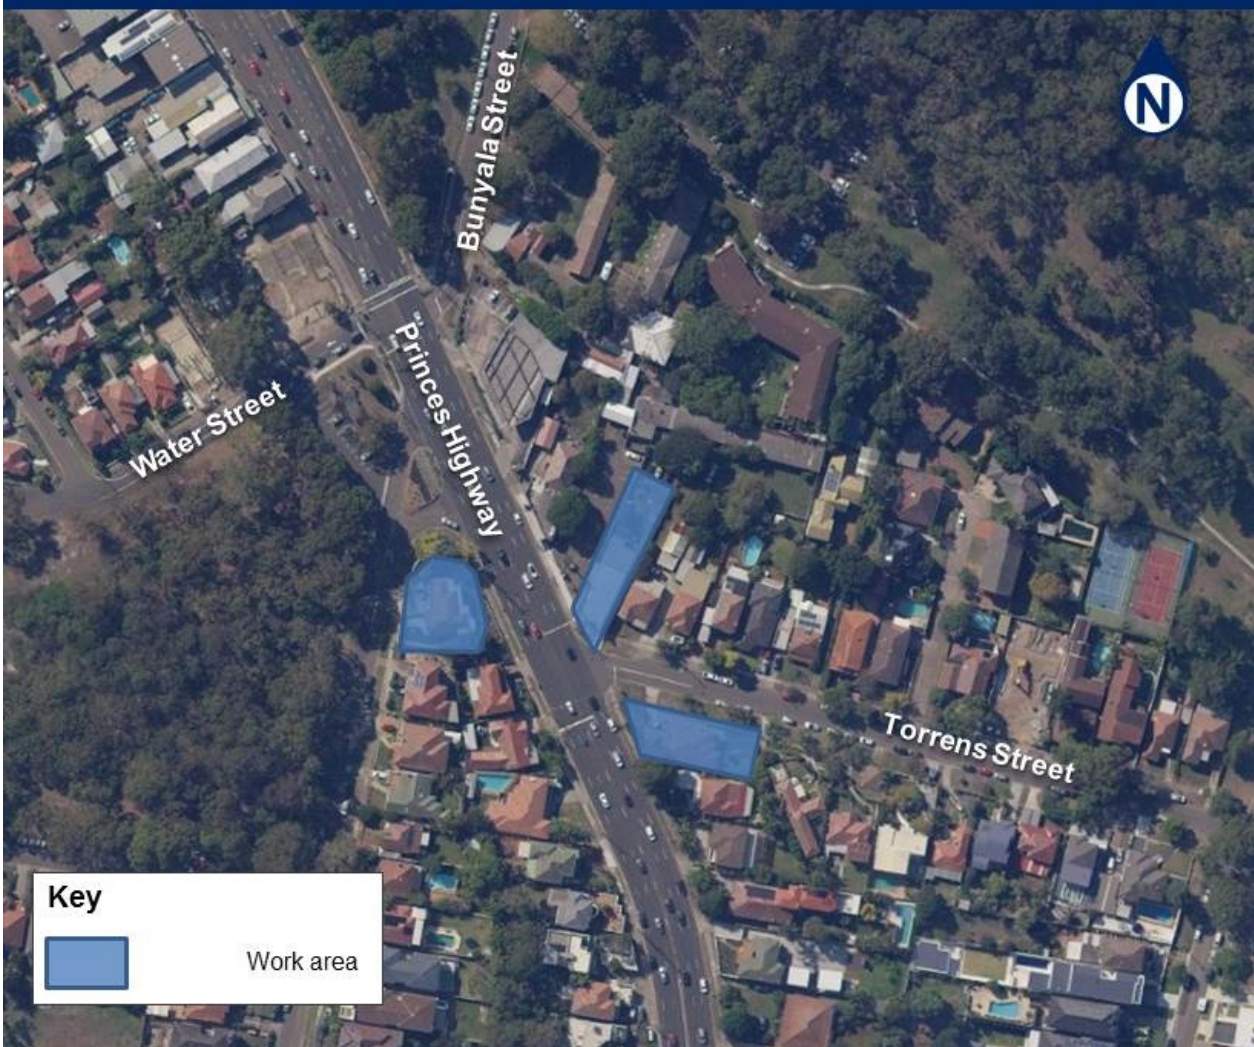

Start of work

Transport for NSW | February 2020

The NSW Government is funding this project as part of a program to ease congestion and improve travel times on Sydney's busiest corridors.

Transport for New South Wales is widening the Princes Highway and removing the tidal flow arrangement between James Street and south of Torrens Street, Blakehurst. The completed project will provide an additional lane northbound removing the need to operate the tidal flow.

Map of the work area

What's happening?

Stage one of the work will involve the demolition of 394A, 396 and 669 Princes Highway, Blakehurst. The locations of these three buildings are shown in the map on page one. Demolishing these three buildings will help prepare for stage two.

Stage two of the work will involve utility relocations and pavement widening on the Princes Highway. The completed project will provide an additional lane northbound removing the need to operate the tidal flow.

What is a Tidal Flow?

The tidal flow arrangement on the Princes Highway reverses the direction of traffic of one southbound lane to northbound during the morning peak. This is then changed back to its original configuration outside the morning peak.

Project benefits

The benefits of the improvement include:

- Easing congestion on the Princes Highway.
- Improving traffic flow and journey reliability.

Noise management

Roads and Maritime understands that noise during road construction can be a source of frustration for residents living near our project. We are committed to finding the right balance between minimising the impact to residents and the need to complete the road construction for the wider community.

Our work schedule for Stage One work

From **early February** until **May 2020**, we will work up to **six days** a week, weather permitting.

Our day work hours will be **7am-6pm** from **Monday to Friday** and **8am-1pm Saturdays**. Our standard night work hours will be **8pm-5am** from **Sunday to Friday**. Residents will be notified of any upcoming night work.

Contact

If you have any questions, please contact our project manager, Kumar Shan on 1800 572 114 during business hours or G2S@rms.nsw.gov.au. For more information on our projects, visit rms.nsw.gov.au.
