

Memorial Avenue, Kellyville upgrade

Transport for NSW | March 2020

Memorial Avenue looking west towards Old Windsor Road

The NSW Government is upgrading Memorial Avenue to ease congestion, improve travel times and meet the future transport needs of Sydney's northwest.

Each day nearly 30,000 motorists use Memorial Avenue to travel to their homes, jobs, schools, public transport, shops and services. Currently motorists experience heavy congestion, slow travel times and long delays.

Transport for NSW is upgrading Memorial Avenue from a two lane into a four lane road, with the option to expand to six lanes if needed in the future. This will improve traffic flow, ease congestion and reduce travel times along Memorial Avenue and nearby roads especially during the morning and afternoon peaks.

The upgrade will play a key role in supporting the 30-minute concept outlines in the Future Transport Strategy 2056 and will support housing and employment growth in the area.

We're building shared paths for pedestrians and cyclists along both sides of Memorial Avenue; that will connect with paths to Kellyville and Bella Vista Metro stations. We are also working with The Hills Shire Council to make sure these paths connect to other shared paths in the local area.

The project will build new bus stops and upgrade others, improving public transport options for the local community.

We started early work, such as relocating utilities and investigating road and soil conditions, in July 2019. We expect to award the major construction contract in mid-2020. You will continue to see us in the project area relocating utilities as we lead in to major construction starting later this year.

Thank you for your ongoing patience with us during this work. Building the Memorial Avenue upgrade will deliver great improvements in your local area will take some time. We will continue to inform you as we progress the project.

Community benefits

The benefits of widening Memorial Avenue include:

- improving traffic flow along Memorial Avenue
- easing congestion on Memorial Avenue and connecting roads
- improving travel times between Blacktown and Castle Hill
- improving safety for motorists, cyclists and pedestrians by providing off-road shared paths
- improving access to public transport by giving buses priority to move through traffic lights and creating indented bus bays so buses can stop without impacting traffic on both sides of Memorial Avenue.

Easing
congestion

travel time

Improvements
to public transport

New pathways
for active transport

Features

The upgrade work includes:

- widening Memorial Avenue from a two-lane to a four lane road, with the option to expand to six lanes in the future if needed
- adding new bus stops and upgrading current bus stops
- providing dedicated turning lanes at intersections with traffic lights
- removing direct access to Memorial Avenue from Hector Court, Rutherford Avenue and McCausland Place
- we are also upgrading intersections at:
 - Old Windsor Road and Sunnyholt Drive
 - Arnold Avenue and Free Settlers Drive
 - Windsor Road
 - North West Transitway
- constructing new shared foot and cycle paths on both sides of Memorial Avenue
- providing new traffic lights at the Memorial Avenue intersections of:
 - Arnold Avenue and Severn Vale Drive
 - Arnold Avenue and Free Settlers Drive

Project Stages

What are the next steps?

Planning for this project is now complete and we're moving into construction. We expect to award a major construction contract in mid-2020.

You will notice some investigation and minor work taking place in the project area in the lead up to construction.
