

# Kingsford to Centennial Park Walking and cycling improvements

## Out of hours work look ahead May-June 2022

Transport for NSW | April 2022

The Australian and NSW Governments are delivering walking and cycling improvements to provide an active transport link between Kingsford and Centennial Park.

### Upcoming out of hours work

To maintain safety for road users and workers, and to keep people moving on local roads, we need to carry out work outside of normal construction hours.

We will work closely with affected residents to minimise the impact of our work and notify you ahead of the work near your property.

You can sign up to receive detailed information about the location of work and planned activities. Please contact us if you would like to receive these updates.

**K2CP-community@burtoncontractors.com.au**

### Investigation Work

We will be conducting investigation work along the project alignment including utility locating and potholing at the following locations:

- Intersection of Day Avenue and Doncaster Avenue
- Intersection of Houston Road and Barker Street
- Intersection of Houston Road and Strachan Street

These locations are shown on the maps overleaf.

This work will occur between **8pm to 5am from Monday 2 May to Thursday 30 June 2022** and will require **approximately 12 nights of work during these dates.**

Work is dependent on weather and site conditions and is subject to change.

### Construction work

We will also be conducting construction activities and out of hours work between **between 2 May to 30 June 2022**. These works will happen between 8pm to 5am, Sunday to Thursday, weather and ground conditions permitting. We won't work on public holidays.

#### Work locations:

- Intersection of Todman Avenue and Doncaster Avenue – constructing traffic signals and concreting works. **Up to 20 nights work**
- Intersection of Darling Street and Doncaster Avenue - constructing a new pedestrian crossing across Doncaster Avenue into Darling Street. **Up to 12 nights work**
- Intersection of Doncaster Avenue and Ascot Street - constructing new concrete medians on both Doncaster Avenue and Ascot Street. **Up to eight nights work**
- Reconfiguring the traffic on Doncaster Avenue between Koorinda Avenue and Anzac Parade. **Up to two nights work**
- Barker Street and Sturt Street - completing tree trimming and removal. **Up to two nights work.**

The tree removal is required to improve safety and to allow for new kerb and footpaths, and to relocate utilities. We will be re-planting 89 trees along the project alignment once the cycleway is complete.

These locations are shown on the maps overleaf.

Work is dependent on weather and site conditions and is subject to change.

## Minimising community impact?

Our work activities will require the use of machinery that generates noise, light and vibration.

Equipment used for these activities include: concrete saw cutter, excavator, core drill, concrete truck, compaction equipment, vacuum excavation truck, mobile lighting tower, chainsaws, power tools and utility trucks.

To minimise the impact of this work we will:

- Complete noisiest activities by midnight
- Schedule breaks in work program and move locations
- Turn off machinery when not in use
- Use acoustic blankets to minimise noise, where feasible
- Direct temporary lighting down and away from houses
- Fit equipment with devices to minimise noise, particularly non-tonal reversing beepers
- Monitor noise periodically so we can manage any potential impacts and adjust our work as required.

We will work closely with residents in close proximity to these works to minimise impacts and we will notify you ahead of the work in your area.

All work will be carried out in line with the project environmental approvals.

## Traffic and pedestrian path changes?

There will be temporary lane closures as we install water filled barriers to ensure the safety of road users and workers and temporary changes to parking. There may also be a partial closure of footpath at our work area and alternative path and signs will be in place.

Please allow extra travel time, keep to speed limits and follow signs and traffic controller directions.

For the latest traffic updates, call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW app.

## Contact us

If you have any questions, or would like to sign up for regular construction email construction updates, please contact our delivery partner, Burton Contractors:
