

Kissing Point Wharf Upgrade

MAY 2020 COMMUNITY NOTIFICATION

Transport for NSW is improving Sydney's ferry services for customers. New and upgraded wharves are being delivered as part of the NSW Government's Transport Access Program - an initiative to deliver modern, safe and accessible transport infrastructure across the state.

In January and February 2020 the Review of Environmental Factors for the proposed upgrade to Kissing Point Wharf was on display for comment. We received eight written submissions from the community and two from businesses relating to the proposal, as well as in-person feedback at our community information session.

A Submissions Report has been prepared which summarises and responds to all of the feedback received. The Submissions Report can be viewed at rms.nsw.gov.au/projects/kissingpoint-wharf.

Whats next

The project is continuing without any changes and on-site work to upgrade Kissing Point Wharf is expected to start by mid-2020 and take about five months to complete. We will notify the community before starting work.

If you have any questions please contact the project team by email wharfupgradeprogram@rms.nsw.gov.au or phone **1800 770 973**.
