

# Linden Street upgrade

## Out of hours and investigation work | August 2022

Transport for NSW is upgrading Linden Street to reduce congestion and improve safety, traffic flow and journey reliability. This upgrade is being funded as part of the Gateway to the South pinch point program.

### What's happening?

From Sunday 14 August, day and night work will include:

- Continuing with removing and trimming vegetation within the project boundary including on River Road near the noise wall, on Linden Street between River Road and Leonay Street, on The Grand Parade, and on Linden Street near Oakwood Street
- Continuing removing concrete medians
- Installing temporary safety barriers and signage
- Closing the footpath on River Road between Galga Street and Oakwood Street
- Establishing work areas, storage areas and site compounds within the project boundary on Linden Street, and Galga Street
- Relocating utilities and installing drainage.

These activities will occur during day and night work hours.

### Working hours

Day work is carried out between **7am and 6pm Monday to Friday**, and between **8am and 1pm Saturday**.

Night work is carried out between **8pm and 5am Sunday to Thursday**.

### How will the work impact me?

This work may be noisy at times. We will make every effort to minimise disruption by:

- Fitting equipment with devices to minimise noise including reversing squawkers rather than beepers
- Using noise shields
- Turning off machinery and vehicles when not in use
- Directing temporary lighting down and away from homes
- Carrying out noisier activities, including jackhammering and saw cutting, earlier in the night, where possible
- Monitoring noise so we can manage impacts and adjust our work, where possible.

## Traffic changes

Traffic changes may include reduced speed limits, temporary lane and shoulder closures and intermittent stop/slow traffic control. Please observe traffic signs and traffic controllers' directions.

For the latest traffic updates, call 132 701, visit [livetraffic.com](https://www.livetraffic.com) or check the Live Traffic NSW App.

## Investigation work for local road improvements

Following community and stakeholder feedback, Transport for NSW is investigating additional local road improvements that could be carried out as part of the Linden Street upgrade.

From Monday 15 August 2022, site survey, geotechnical and utilities investigation will be carried out on The Grand Parade, Oakwood Street, Leonay Street and Galga Street.

Work will be carried out between 7am and 5pm Monday to Friday and is expected to take around two weeks, weather permitting.

This investigation work will inform a design proposal for the additional local road improvements. We will keep the community informed on the progress of this work.

Traffic changes will be in place on The Grand Parade, Oakwood Street, Leonay Street and Galga Street during this work. This may include shoulder closures and intermittent stop/slow traffic control. Please observe traffic signs and traffic controllers' directions.

## Staying informed

To stay informed about the project, you can register for our email updates at [nswroads.work/lindenstreet](https://nswroads.work/lindenstreet).

### Contact us
