

Linden Street upgrade

Project update | October 2022

Transport for NSW is upgrading Linden Street to reduce congestion and improve safety, traffic flow and journey reliability. This upgrade is being funded as part of the Gateway to the South pinch point program.

What's happening?

During October, works will include:

- Continuing site survey work, geotechnical and utilities investigation on The Grand Parade, Oakwood Street, Leonay Street and Galga Street for additional local road improvements
- Continuing with the removal of concrete medians
- Continuing with the relocation of utilities
- Continuing establishing work areas, storage areas and site compounds within the project boundary on Linden Street and Galga Street
- Installing temporary safety barriers and signage
- Installing drainage.

Working hours

Day work is carried out between **7am and 6pm Monday to Friday**, and between **8am and 1pm Saturday**.

Night work is carried out between **8pm and 5am Sunday to Thursday**.

How will the work impact me?

This work may be noisy at times. Equipment used may include lights, vehicles and trucks, generators, excavators, vacuum trucks and water carts, powered hand tools and lighting towers.

We will make every effort to minimise disruption by:

- Fitting equipment with devices to minimise noise, including reversing squawkers rather than beepers
- Using noise shields
- Turning off machinery and vehicles when not in use
- Directing temporary lighting down and away from homes
- Carrying out noisier activities, including jackhammering and saw cutting, earlier in the night, where possible
- Monitoring noise to manage impacts and adjust our work, where possible.

Traffic changes

Traffic changes may include reduced speed limits, temporary lane and shoulder closures and intermittent stop/slow traffic control. Please observe traffic signs and traffic controllers' directions.

For the latest traffic updates, call 132 701, visit livetraffic.com or check the Live Traffic NSW App.

Staying informed
