Dear Deanne,

**RE: ER Approval of Minor Amendment M12 Motorway – Early Works Site Establishment Management Plan (Gas Protection) Revision G**

Thank you for providing the following document for Environmental Representative (ER) approval of minor amendments as required by the Condition of Approval A34 (i) of the M12 Motorway approval (SSI 9364):

- M12 Motorway – Early Works Site Establishment Management Plan (Gas Protection) Revision G

I have reviewed the minor amendments made to the document by Zinfra and Transport for NSW. Changes include updates to include two minor ancillary facilities within the Early Work footprint.

As an approved ER for the M12 Motorway project, I am satisfied the minor amendments to include two minor ancillary facilities within the Early Work footprint do not increase impacts and are consistent with the terms of the approval including the Minor Ancillary Facility definition and project documents. Therefore, I approve the minor amendments to Early Works Site Establishment Management Plan.

Yours sincerely

George Kollias  
Environmental Representative – M12 Motorway
