

M12 Motorway - West

Night work – Road surface testing

The Australian and NSW governments are building the M12 Motorway to provide direct access to the Western Sydney International Airport at Badgerys Creek and connect to Sydney’s motorway network.

What are we doing?

Transport for NSW will continue night work for **five night shifts** between **Monday 12 December** and **Monday 19 December 2022** along Elizabeth Drive, Badgerys Creek and Luddenham Road, Luddenham and The Northern Road, Littlefields Road and Gates Road, Luddenham.

During this work, we will carry out road surface testing to assess the road condition. This work needs to be carried out at night to minimise traffic disruptions and reduce safety risks to our workers and motorists.

M12 West night work locations

Work hours

Our night work hours are between **8pm** and **5am**. We will complete noisier tasks by **midnight** and will not work more than two nights in a row in the same location.

Our day work will continue between **7am** and **6pm** from **Monday** to **Friday** and between **8am** and **6pm** on **Saturdays**. There will be no work on Sundays or public holidays.

What equipment will be used?

During the night work we will use a light utility vehicle and trailer with scanning equipment.

How will this work affect you?

The road surface testing will involve two utility vehicles constantly stopping every 25 metres to assess the road condition. The trailers are attached at the back of these vehicles with a plate under the trailer that lowers down and produces a slight sound wave that tests the thickness of the road pavement.

Work vehicles will be using flashing lights as a safety requirement. However, noise levels during these works are expected to be low.

Traffic changes

There will be temporary traffic changes along the work zone during our work hours to ensure the work zone is safe.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call **132 701**, visit **livetraffic.com** or download the Live Traffic NSW app.
