

M12 Motorway - West Night work along Elizabeth Drive, Badgerys Creek and Luddenham Road, Luddenham

The Australian and NSW governments are building the M12 Motorway to provide direct access to the Western Sydney International Airport at Badgerys Creek and connect to Sydney's motorway network.

What are we doing?

Transport for NSW will continue night work for up to **32 night shifts** between **Monday 16 January 2023** and **Tuesday 28 February 2023** along Elizabeth Drive, east of Luddenham Road in Badgerys Creek and Luddenham Road, Luddenham. During this period, we will:

- repair, maintain and install pavement, barriers, line marking, signage and road furniture as required
- deliver spoil to the construction site on Elizabeth Drive
- install retaining wall panels on Elizabeth Drive
- deliver, use and remove oversized equipment when needed.

These works need to be carried out at night for the safety of our workers and road users and to minimise traffic disruption.

We will also continue bridge works across Luddenham Road, Luddenham during day time. Traffic control will be in place during the works to manage the construction and road traffic across the construction intersection on Luddenham Road.

Our work schedule

Our night work hours are between **6pm** and **7am**, Monday to Friday. Our day time work hours are between **7am** and **6pm, Monday to Friday** and between **8am** and **6pm** on **Saturdays**. There will be no work on Sundays or public holidays.

What equipment will be used?

During the works we may use excavators, compactors, light and heavy vehicles, hand powered tools, small cranes and wheeled excavators, vacuum truck, water cart, sweepers, milling machines and asphalt pavers, water blasters for line marking removal, and line marking trucks.

We will use semi-trailer floats to deliver and remove oversized equipment. When we work at night and on the road, we will use lighting towers and have traffic control in place.

Work zones – Elizabeth Drive, Badgerys Creek and Luddenham Road, Luddenham

How will this work affect you?

During our work you may see increased activities in the area.

The work may be noisy at times, but we will do everything we can to minimise its impact, including completing noisier activities earlier in the night before **midnight**, where possible, and turning off equipment and machinery when not in use.

We will not work more than two nights in a row and three nights in the same week at the same location.

Traffic changes

There will be temporary traffic changes along the work zone during our work hours to ensure the work zone and traffic are safe while the equipment is used, delivered and removed.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW app.
