

Transport for NSW

Massey to Amherst Street Noise Wall

Project update | July 2021

Transport for NSW is planning to build a new noise wall to help reduce the impact of traffic noise for residents on Massey, Armstrong and Jenkins Streets, Cammeray.

Community feedback

We invited your feedback on the concept design for the noise wall in December 2020. Thank you to everyone who took time to review our proposal and provide comments.

We received eight submissions from the community and the responses were generally supportive of the proposal. The key topics raised included:

- the design and appearance of the noise wall, including the height, colour and use of transparent panels
- impact to existing trees and vegetation
- noise impact
- construction timing and work schedule
- community consultation.

We have prepared a Community Feedback Report outlining the feedback and our responses. The report is available to view on the project web page at nswroads.work/m2a.

After considering community feedback, we will continue to develop the noise wall in line with the proposed concept design. In response to feedback, we will review the colour of the noise wall.

Project approval

The Western Harbour Tunnel and Warringah Freeway Upgrade was approved by the Minister for Planning and Public Spaces in January 2021. The Massey to Amherst Street Noise Wall was identified in the project's Environmental Impact Statement (EIS) as one of a number of measures we will use to reduce the impact of noise on the community.

As the noise wall was identified in the EIS, it has approval to be built in line with the Minister's Conditions of Approval for the project. By building the noise wall early in line with these conditions, this will help reduce noise for local residents during the construction phase of the project.

To view the Minister's Conditions of Approval, and for further information about the project, please visit nswroads.work/whtportal.

Next steps

Our next step is to prepare the detailed design for the noise wall. We will consider community feedback as we finalise the design.

We are on track to start construction of the noise wall in late 2021 and this work is expected to take about six months to complete, weather permitting. Before construction starts, utility works, surveying and geotechnical investigations are required to take place over the next few months. The community will be updated further on these works soon.

We will provide further information before any work on the noise wall starts, including what to expect during construction, our work schedule and mitigation measures.

We will continue to keep you informed as the proposal progresses, including future opportunities to provide feedback.

You are invited to our live virtual information session

We will be hosting a live virtual information session on Wednesday 28 July at 4pm-4:45pm so you can listen to a short presentation from the project team about next steps and ask us questions.

To join, please visit our website at nswroads.work/m2a at the time of the session and click on the video link.

If you don't have access to the internet and would like more information please call us on **1800 931 189** (Monday to Friday 9am-5pm) to speak to a member of the project team.

Supporting NSW amid COVID-19

The health and safety of our workforce and the wider community will be top of mind as we carry out our work. This will include ensuring our workers follow the appropriate hygiene and social distancing guidelines.

Privacy Transport for NSW ("we") are collecting your personal information in connection with public consultation on the Western Harbour Tunnel, Warringah Freeway Upgrade and Beaches Link projects ("the Program"). We will retain and use this information for consultation purposes, including communications and analysis in connection with the Program. We may share your submission or complaint with another NSW government agency where relevant having regard to the nature of the submission or complaint. Otherwise, except for anonymous information which does not identify you, we will not publish or disclose your personal information to any third parties without your consent unless authorised by law. Providing your personal information is voluntary but if you do not provide it we may not include you on our stakeholder database and you might miss further consultation opportunities. Your personal information will be held and managed by Transport for NSW in accordance with the Privacy and Personal Information Protection Act 1998 and you can contact us to access or correct it. Please email us at whtbl@transport.nsw.gov.au, write to us at Transport for NSW, Locked Bag 928, North Sydney NSW 2059, or call us on 1800 931 189.
