

McMahons Point Wharf

Community Information Session No. 2

Thursday 12 February 2015

The NSW Government is upgrading McMahons Point Wharf as part of the Transport Access Program – an initiative to deliver modern, safe and accessible transport infrastructure.

The NSW Government is progressively upgrading ferry wharves across Sydney Harbour to improve Sydney's ferry service for customers.

In response to community feedback regarding the position of the new wharf, further assessments have been carried out to determine if there was a suitable alternative. A number of factors need to be considered including, safety, efficient ferry operations, accessibility, environmental and heritage impacts.

We invite you to come along to speak with members of the project team who will present information about the new proposed position of the wharf and respond to other feedback received during consultation.

Where: McMahons Point Community Centre, 165 Blues Point Road, McMahons Point

When: Thursday 12 February 2015

Time: 6.30pm to 8.00pm. The presentation will start at 6.30pm followed by discussion. There will also be an opportunity to view information and speak to members of the project team one-on-one.

We look forward to seeing you there.

The upgraded wharf will provide:

- Better protection from the wind, rain and sun
- Improved safety for customers
- Improved access for mobility impaired customers and customers with prams
- Quicker and more efficient boarding and disembarking
- Future capacity for two ferries to berth at the wharf at the same time.

If you would like further information about the McMahons Point Wharf upgrade you can:
