

McMahons Point Wharf upgrade

Artist's impression of the new McMahons Point Wharf viewed from the water.

The NSW Government is upgrading McMahons Point Wharf as part of the Transport Access Program.

It is expected work will start in the first quarter of 2015 and construction will take about five months. McMahons Point Wharf will be closed during this period. All efforts will be made by the project team to reopen the wharf as soon as possible.

We will notify customers, local residents, local businesses and key stakeholders in advance of the temporary closure of the wharf.

The NSW Government is progressively upgrading ferry wharves across Sydney Harbour to improve Sydney's ferry service for customers. The new wharf is being delivered as part of the NSW Government's \$770 million Transport Access Program – an initiative to deliver modern, safe and accessible transport infrastructure.

The upgraded wharf will provide:

- Better protection from the wind, rain and sun
- Improved safety for customers
- Improved access for mobility impaired customers and customers with prams
- Quicker and more efficient boarding and disembarking.

We invite you to come along to a community information session at the McMahons Point Community Centre on Thursday 12 June 2014. Members of the project team will be available to provide further information about the project.

You are welcome to drop in anytime between 5pm and 7pm at:

**McMahons Point Community Centre
165 Blues Point Road
McMahons Point
Thursday 12 June 2014**

If you would like further information about the McMahons Point Wharf upgrade you can:
