

Concreting on Fitzroy Street, Dubbo from Tuesday 19 October

Transport for NSW and our contractors are working together to deliver the project at the intersection of Mitchell Highway (Cobra Street) and Fitzroy Street to improve safety and efficiency

As part of building the upgrade we need to carry out concrete work, which includes kerb and guttering out the front of residences and businesses. We have included a map to show the location of the works.

We will be working between **7am** and **6pm** from **Monday** to **Friday** and expect to complete this work in **10 days**, weather permitting. We will let you know in advance if we need to do any work outside these times.

How will the work affect you?

There may be some noise and disruption associated with this work including project vehicle movements, concreting and moving equipment. We will make every effort to minimise noise by arranging the work in stages at different locations, turning off machinery and vehicles when not in use.

There will be no driveway access to residences along Fitzroy Street during this time. Our project team will provide further updates and information about these impacts to directly impacted residents and businesses before the work commences.

Covid-19

Work crews will be adhering to strict Covid-19 protocols with approved Covid-19 safety plans in place and NSW Health work permits. The program of work is subject to change in response to any further government restrictions that may be put in place to manage Covid-19.

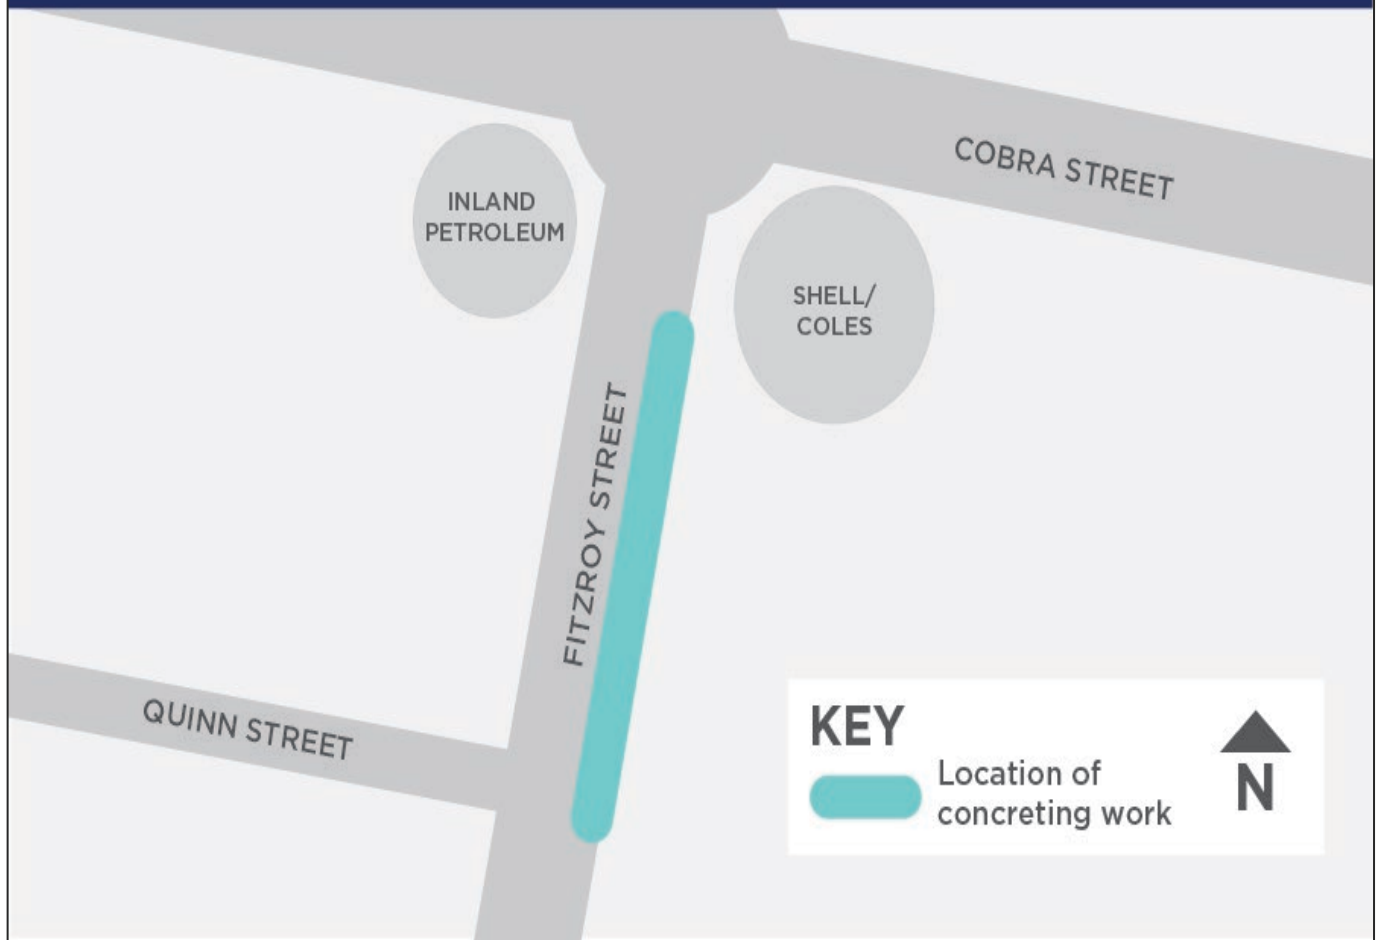

Contact

If you have any questions, please contact our Project Supervisor, on 0408 699 026 or dubboprojects@transport.nsw.gov.au
