Our work schedule

Out of hours work is planned from **8pm to 6am** between **Tuesday 23 February** and **Friday 5 March**, weather permitting.

If work is delayed due to wet weather, we will try to work a different night that same week.

How our work will affect you?

We need to carry out our work at night to minimise traffic disruption and reduce safety risks to the workers and motorists.

During our night work we will use:

- excavators with rock hammers
- large bulldozers
- backhoes
- tipper trucks
- elevated work platforms
- a roller, a paver and a profiler
- street sweepers,
- compactor and wacker packers
- small cranes
- vacuum trucks
- concrete trucks
- a saw cutting machine
- large trucks
- light vehicles and lighting towers.

We will work up to three nights a week and up to ten nights each month.

We will notify highly impacted residents if there is a change of date.

If you are eligible for alternative accommodation, we will contact you at least 24 hours prior to the work.

Drone

A drone will be used each month to take progress photos and assist with survey work. The drone will stay within the project area.

Note: Shaded areas on the map are approximations for general information and illustrative purposes only.

Traffic changes

There will be temporary traffic changes to ensure the work zone is safe for workers and road users.

Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
