Mulgoa Road, Jamisontown upgrade – have your say

Review of Environmental Factors (REF)

Roads and Maritime Services | August 2018

Aerial view of Mulgoa Road and M4 Motorway intersection.

The Australian and NSW Governments are planning to widen and upgrade Mulgoa Road / Castlereagh Road to support current and future traffic demands and expected growth in the area. This includes $100 million to fast-track the first stage of the corridor upgrade between Jeanette Street, Regentville and Blaikie Road, Jamisontown.

Mulgoa Road, Jamisontown

The upgrade of Mulgoa Road, Jamisontown, from Jeanette Street to Blaikie Road including the M4 Motorway, has been fast-tracked with a $100 million commitment from the Australian and NSW Governments.

Roads and Maritime Services has developed the concept design and the environmental assessment for this proposal.

The draft environmental assessment, called the Review of Environmental Factors (REF), is available for public comment until Friday 21 September 2018.

Following community consultation, the preferred corridor for the entire Mulgoa Road / Castlereagh Road upgrade was finalised in April 2018. The Mulgoa Road, Jamisontown upgrade is within the preferred corridor and we want to hear your views on it.

Intersection of Mulgoa Road and Blaikie Road.

Features and benefits of the Mulgoa Road, Jamisontown upgrade

Features

- Three lanes in each direction
- Upgraded intersections – including Mulgoa Road and the M4 Motorway intersection, Mulgoa Road and Wolseley Street intersection, and Mulgoa Road and Blaikie Road intersection
- Bus priority lanes at intersections
- A footpath on the western side and landscaping
- Shared path on the eastern side.

Benefits

- Improve road capacity to cater for population and employment growth
- Manage congestion and delays along Mulgoa Road during peak periods
- Reduce travel times and transport costs
- Improve road safety for all users
- Improve active transport.

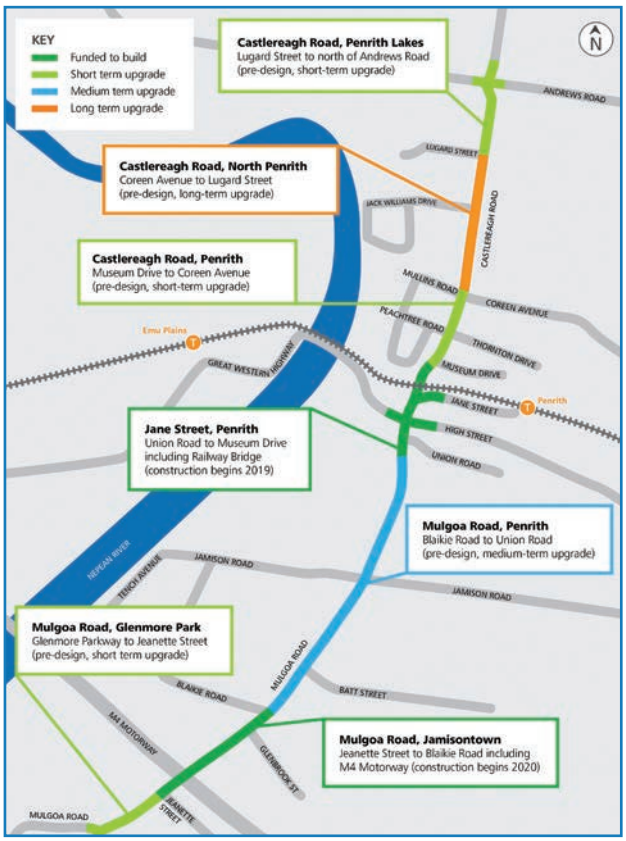
Mulgoa Road / Castlereagh Road corridor upgrade background

The entire corridor connects Penrith's Local Government Area and serves a number of developments in this area. These include: Penrith Station, Riverlink precinct, Penrith Stadium, Penrith Lakes and the M4 Motorway.

Currently, the corridor carries significant traffic volumes of up to 3800 vehicles per hour during morning and afternoon peak periods.

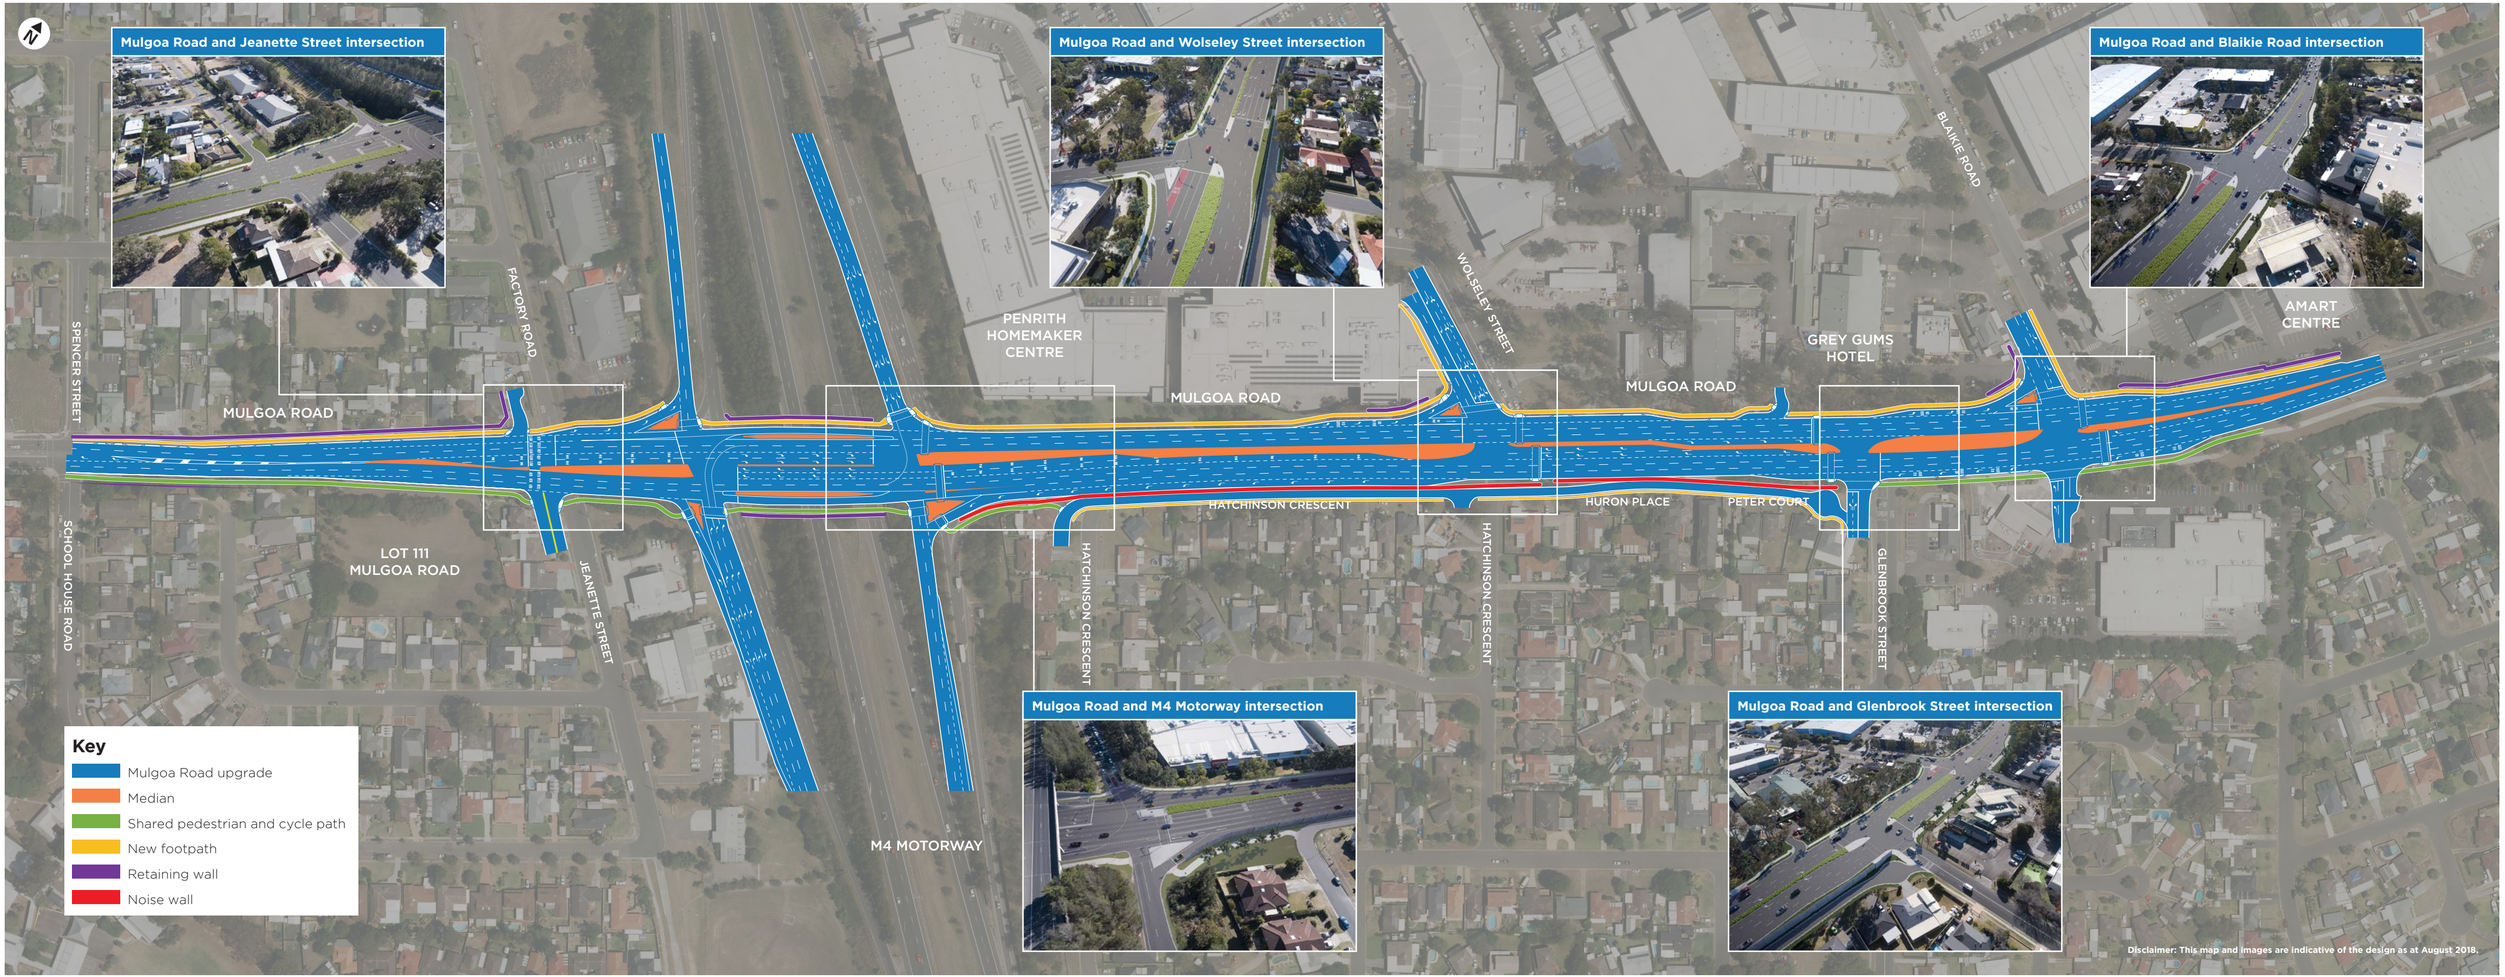
The corridor will be upgraded in stages from two to three-lanes in each direction and include bus priority lanes at intersections and several major intersection upgrades.

The corridor upgrade has been divided into short, medium, and long term work. This would be developed and delivered in stages over a 20 year period, subject to funding. The Mulgoa Road upgrade strategy is shown on the map.



Mulgoa Road / Castlereagh Road corridor upgrade strategy

Proposed Mulgoa Road, Jamisontown upgrade



Intersection **improvements**

Improving traffic flow

Improving **safety**

Improve travel speeds

Easing congestion

Connecting **communities**

Catering for **Sydney's growth**

Building an extra **third lane**

Better and more **reliable trips** for people, business and freight
