

Nelligen Bridge Replacement

The final design will deliver safer and more reliable journeys

Roads and Maritime Services | November 2018

The final design of the Nelligen Bridge replacement, looking east

Roads and Maritime Services has finalised the detailed design for the replacement of the Nelligen Bridge on the Kings Highway over the Clyde River.

The NSW Government has \$9 million in this year's budget to start construction of the Nelligen Bridge.

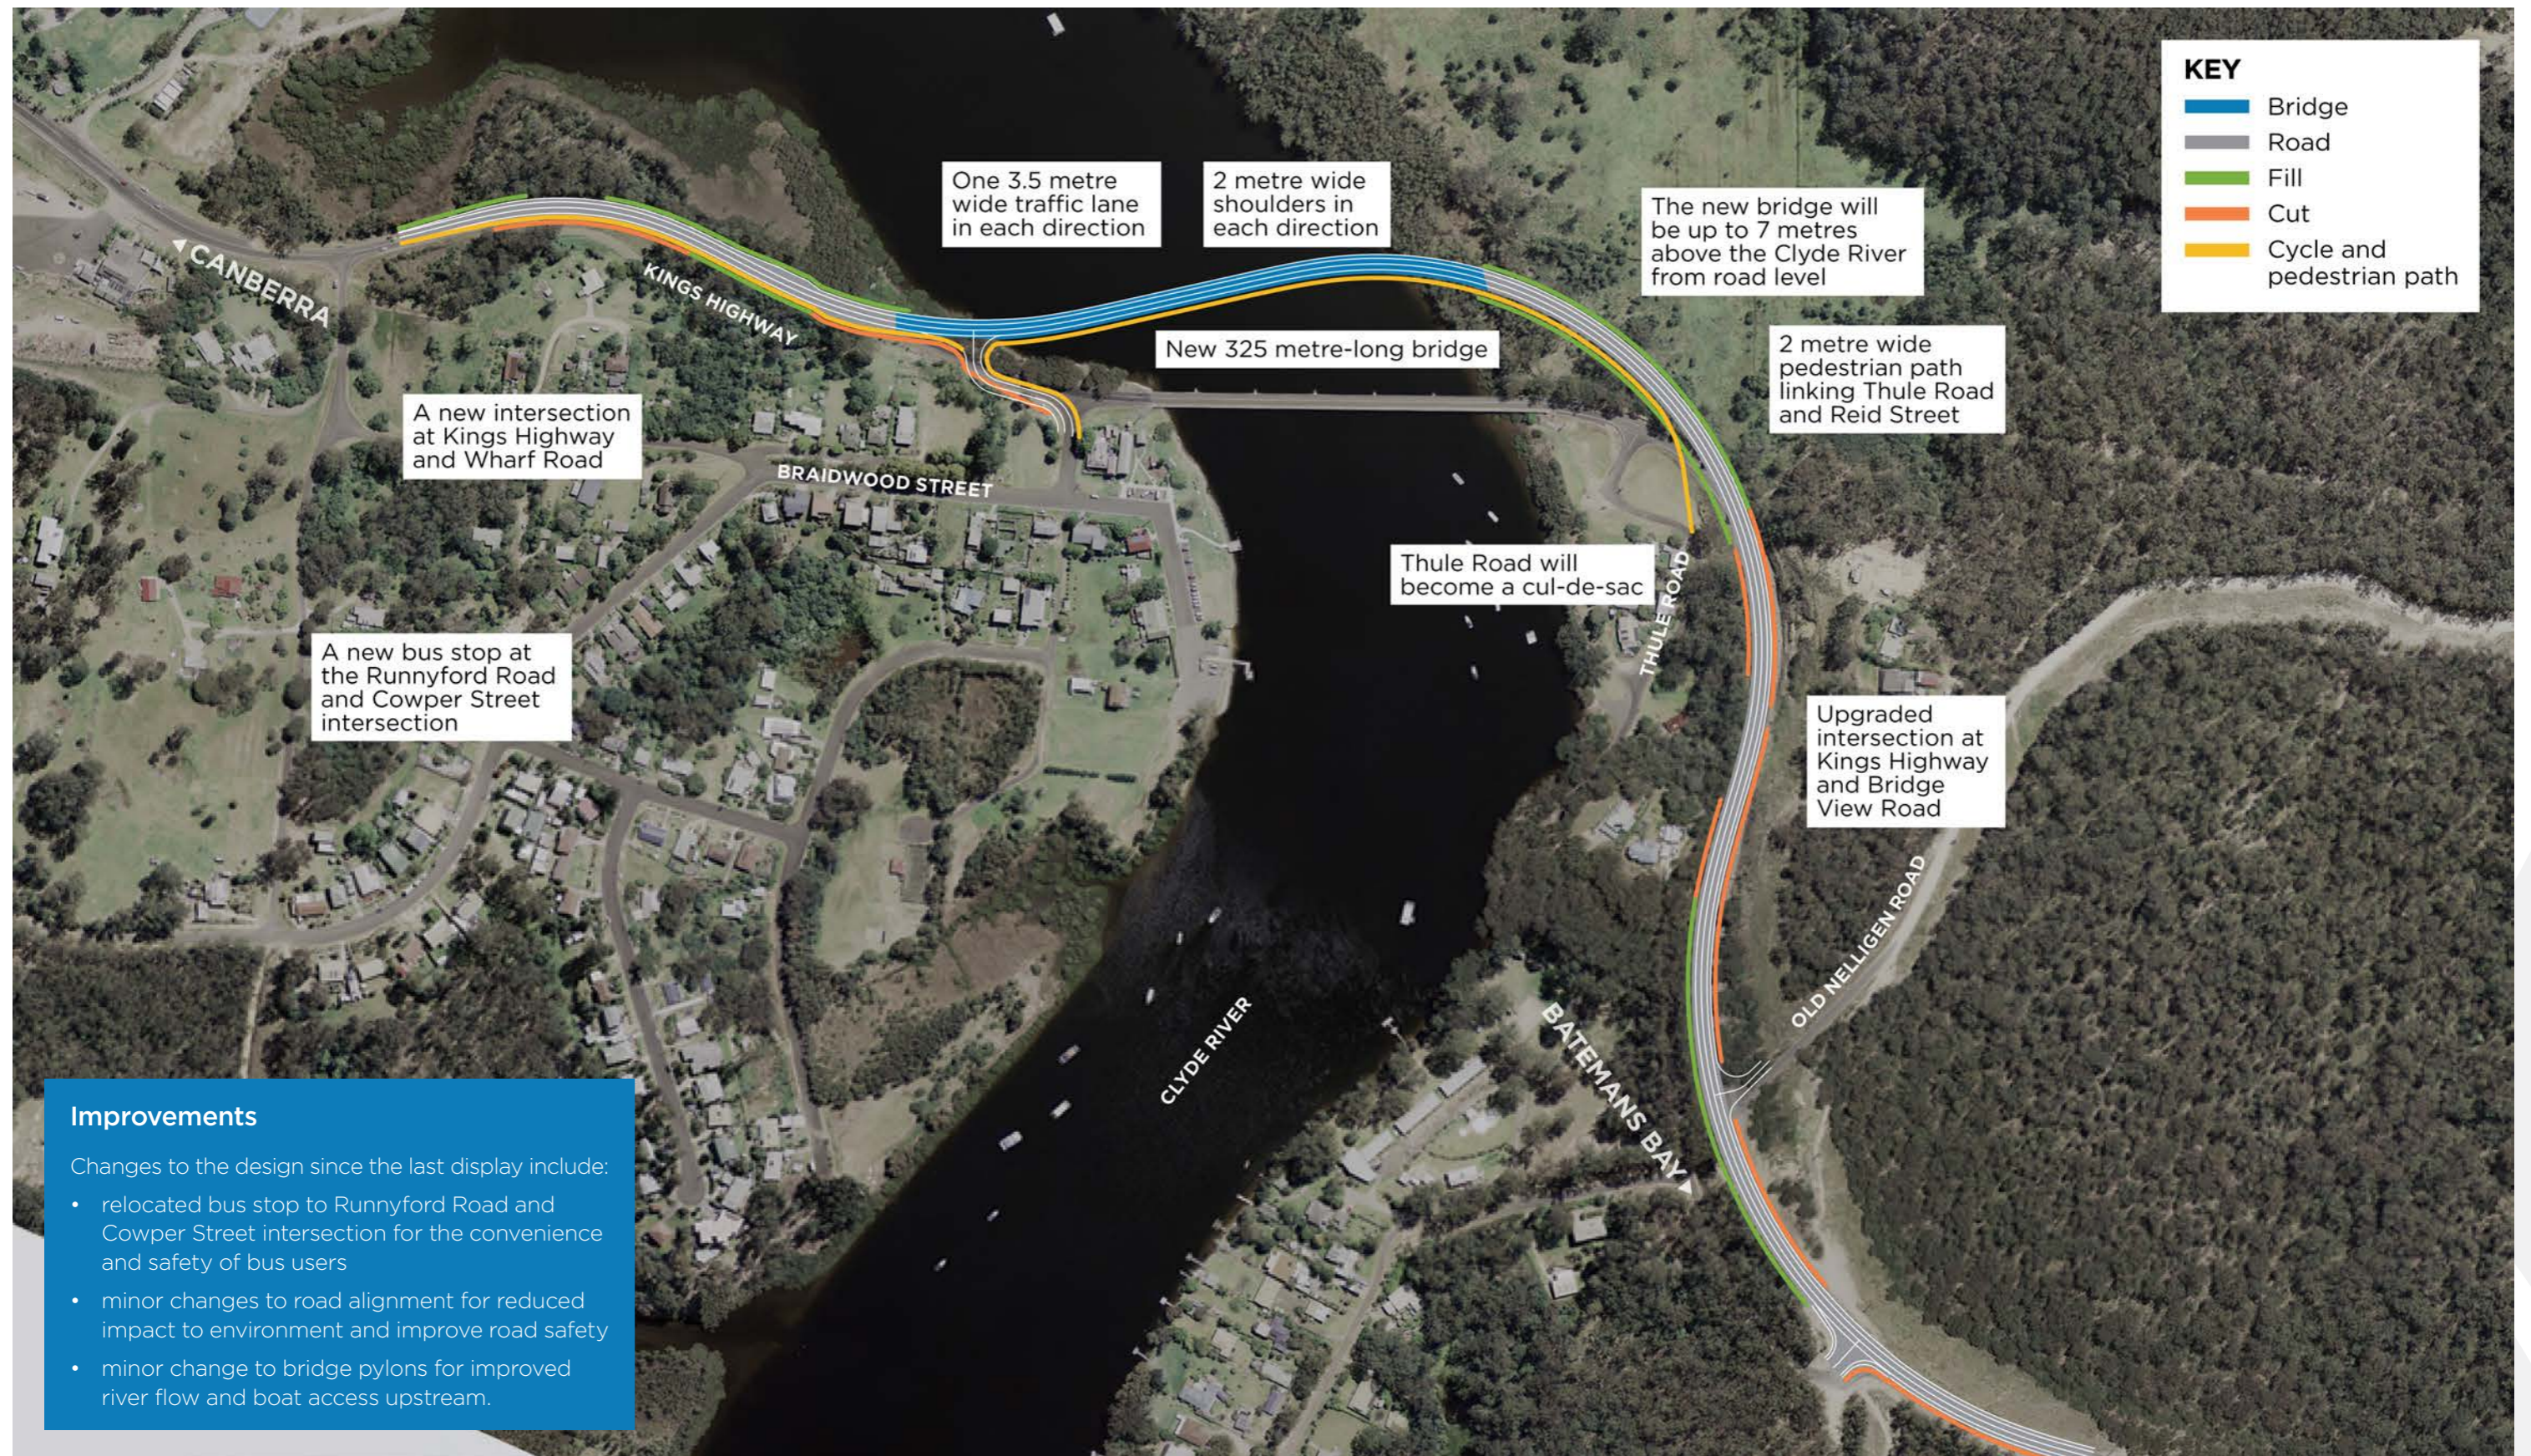

How will the project benefit you?

- It will improve safety for motorists, pedestrians and cyclists by providing an improved curve on the eastern side of the bridge, wider lanes and shoulders, and safety barriers between the road and footpath
- A new bridge will provide a safe and reliable crossing of the Clyde River at Nelligen
- It will improve urban design and access around the river's foreshore.

Final design

- Improvements have been made to the project's design following community feedback.
- You can view these changes and the final design over the page.
- Contractors have been invited to submit tenders to build the bridge.

Detailed design of the Nelligen Bridge replacement

Improvements

Changes to the design since the last display include:

- relocated bus stop to Runnyford Road and Cowper Street intersection for the convenience and safety of bus users
- minor changes to road alignment for reduced impact to environment and improve road safety
- minor change to bridge pylons for improved river flow and boat access upstream.

Improving safety

Better and more **reliable trips** for people, business and freight

Improve road alignment

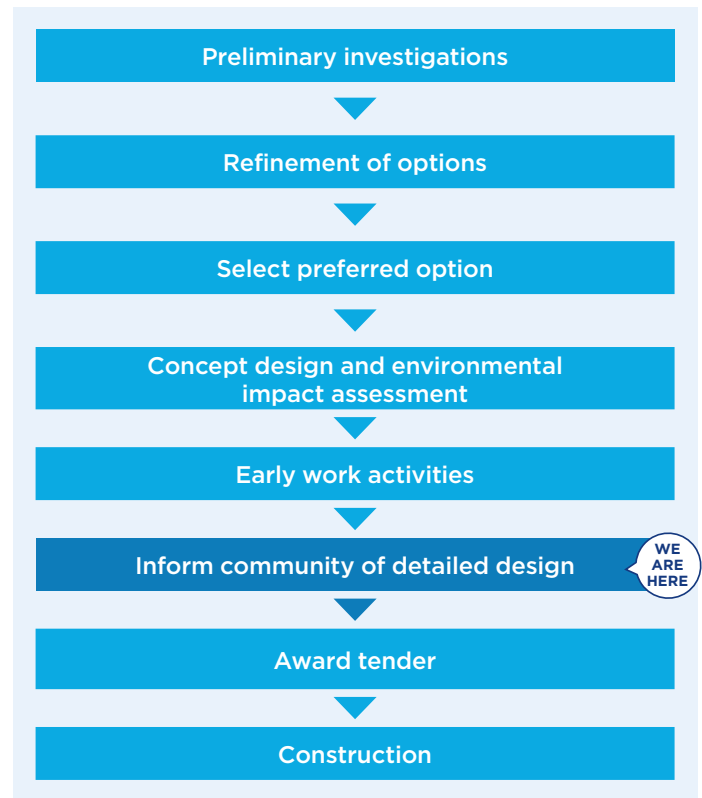

Improve pedestrian safety

What's happening in the next three months?

- Eurobodalla Shire Council is carrying out early work which is expected to be complete in early 2019, weather permitting. This work includes vegetation clearing and start of earthworks on the eastern side of the Clyde River. It will also include the relocation of the bus stop from Braidwood Road and Kings Highway intersection to the Runnyford Road and Cowper Street intersection. This relocation will improve safety for bus stop users.
- The contract is expected to be awarded early next year. Major work will start shortly after.
