

Newcastle Inner City Bypass – Rankin Park to Jesmond

Night work in October 2022

The Australian and NSW Governments are funding construction of a 3.4 kilometre section of the Newcastle Inner City Bypass between Rankin Park and Jesmond, to the west of the John Hunter Hospital. Transport for NSW has engaged Fulton Hogan to finalise the design and construct this section of the bypass.

Continued night work

Night work has been rescheduled for Monday 24 to Friday 28 October, between 6pm and 7am, weather permitting, to create a safe access point that will be used to bring in sheds and equipment for the site compound. Only one night of work was able to be completed between the previously advised period of Monday 17 and Friday 21 October.

Details of planned work

Newcastle Road, westbound lane of the Jesmond roundabout	<ul style="list-style-type: none"> Place and compact road base material behind the kerb – see locations in blue below Traffic control set up and pack up 	Up to 2 nights
--	--	----------------

Traffic changes

There will be traffic controllers on site, please keep to the sign posted speed limits and follow the direction of traffic controllers.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or check the Live Traffic App.

Why is work carried out at night?

Work is required outside standard construction hours to:

- improve safety by minimising the interactions between road users, pedestrians and workers
- minimise delays and journey times for motorists and businesses.

How will the work affect you?

There will be an excavator and roller on site to complete the work. There will also be a truck that will deliver materials to the site. The machinery and equipment that generate light, noise and vibration. We will make every effort to minimise these impacts by:

- turning off machinery and vehicles when not in use
- using non-tonal reversing alarms
- positioning of machines and directing temporary lighting down and away from homes
- planning activities close to residents within standard construction hours and scheduling noisy activities earlier in the night, where possible
- monitoring noise to manage any potential impacts and adjusting our work, where possible.

Noise levels will be moderate, the diagram below provides a guide to the noise you can expect. Directly affected residents will be contacted and advised of the likely impact and what we are doing to minimise disruption during the work.

More information

If you would like to provide feedback, or have any questions about this work, please contact our project team on **1800 818 433** (24 hours), email RP2JCommunity@fultonhogan.com.au or mail to PO Box 186, Waratah, NSW 2298.

For more information about the project visit nswroads.work/rp2j. Thank you for your patience during this important work.
