Subject: Construction Monitoring Programs for Newcastle Inner City Bypass (SSI-6888)

Dear [REDACTED]

I refer to your submission of the Construction Monitoring Programs, under condition C9 and C12 of the approval (SSI-6888). I also acknowledge your response to the Department's review comments and requests for additional information.

I note the Construction Monitoring Programs have been:

- prepared in consultation with DPI Fisheries, DoI Water, Health Administration and Newcastle City Council (where required under the conditions);
- reviewed by Transport for NSW, and no issues have been raised with the Department;
- endorsed by the Environmental Representative; and
- contains the information required by the conditions of approval.

As nominee of the Planning Secretary, I approve the following documents under condition C12:

Document	Revision and date
Surface and Ground Water Quality Construction Monitoring Program	Rev F, June 2022
Air Quality Construction Monitoring Program	Rev G, June 2022
Flora and Fauna Construction Monitoring Program	Rev G, June 2022

You are reminded that if there is any inconsistency between the approved documents and the conditions of approval, then the requirements of the conditions prevail.

Please ensure you make the document and this approval letter publicly available on the project website. In addition, please note that the abovementioned programs may need to be revised during the preparation of the Construction Environmental Management Plan and Sub-Plans.

If you wish to discuss the matter further, please contact [REDACTED] [REDACTED] at [REDACTED]

Yours sincerely

Acting Director
Infrastructure Management

As nominee of the Planning Secretary
