

Site preparation for utility work at New Lambton Heights from 22 February

The NSW Government is funding early work for the Newcastle Inner City Bypass between Rankin Park and Jesmond.

Transport for NSW is starting the next stage of early work on the Newcastle Inner City Bypass to prepare for major work. Delta Group is carrying out demolition and site clearing work on our behalf.

What are we doing?

We will be demolishing and removing a number of residential buildings on Lookout Road in New Lambton Heights. We will carry out some earth work to level the site when the buildings have been removed.

Most of the work will be carried out during the day. Limited work including delivery of machinery may be required outside normal project hours for the safety of workers and road users, and to minimise traffic delays.

A **no stopping** zone has been established outside the properties where the work will be carried out. The bus stop on the western side of Lookout Road in front of number 110 Lookout Road will not be impacted by the work.

We have included a map of the work area overleaf.

We will be working between **7am** and **6pm** from **Monday** to **Friday** and **Saturday** between **8am** and **5pm**, weather permitting. We will seek your feedback if we need to work outside these hours. We expect to complete the work by May 2021, weather permitting.

Date	Work activity	Equipment
From 22 February	Demolishing existing properties on Lookout Road	Excavators, trucks, light vehicles, hand tools, including jackhammers and saws, and traffic control

How will the work affect you?

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise where possible, including turning off vehicles when not in use and providing respite breaks during very noisy work.

Traffic changes

There may be some temporary traffic changes to ensure the work zone is safe. Partial lane closures and a reduced 40km/h speed limit may be in place. Travel times may be affected.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions about this work, please contact our project team on 1800 818 433 (24 hours).
