Information sessions

Newcastle Inner City Bypass Rankin Park to Jesmond

An environmental impact statement (EIS) has been developed for the Newcastle Inner City Bypass between Rankin Park and Jesmond.

The EIS outlines the key features of the project and assesses its potential environmental, social and economic impact during construction and operation.

The Department of Planning and Environment has placed the EIS on display for comment.

We invite you to meet our project team and view the project information at community drop-in sessions on **Saturday 26 November 2016** between **9am-2pm** or **Thursday 1 December 2016** between **3pm-6pm** at the Silver Ridge Community Cottage, 13 Iranda Grove, Wallsend.

Drop in any time. We look forward to seeing you there.

The EIS is available to view at **majorprojects.planning.nsw.gov.au**.

An overview document has also been prepared to outline some of the key issues identified in the EIS and is available to view at **rms.nsw.gov.au/rp2j**.

All submissions must be received by the Department of Planning and Environment by Friday 16 December 2016.
