

Work to start on new overtaking lanes on the Newell Highway near West Wyalong from 13 October 2021

The Newell Highway Program Alliance is building two new overtaking lanes near West Wyalong to improve safety, reduce travel times and improve freight productivity.

Work will start on new northbound and southbound overtaking lanes near Back Creek, about 19 kilometres north of West Wyalong, from Wednesday 13 October 2021.

What are we doing?

The new overtaking lanes are expected to be completed in about seven months.

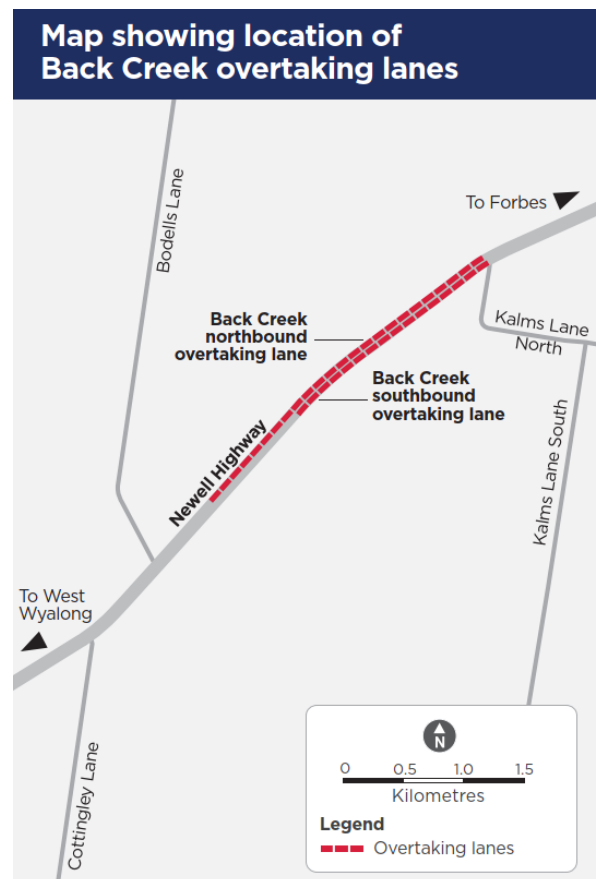

Initial work includes establishing a site compound, stockpile site and fencing. Other work to be carried out includes installing environmental controls, removing vegetation, and road widening.

We will keep the community regularly informed about the progress of the work and any traffic changes. Once completed, road users on the Newell Highway will experience improved safety and more efficient travel times along this section of the Newell Highway.

Work will start on **Wednesday 13 October 2021** and is expected to take seven months to complete, weather permitting.

Work will be carried out on a two-week rotating roster as below:

- **Week 1:** Tuesday to Friday 7am to 6pm; Saturday and Sunday 8am to 6pm
- **Week 2:** Monday to Thursday 7am to 6pm; no work Friday to Monday

How will this affect me?

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by arranging the work in stages at different locations and turning off machinery and vehicles when not in use.

There is likely to be some dust from the clearing, vegetation removal and earthworks. We will use measures to minimise or prevent air pollution and dust, including covering exposed areas.

This two-week rotating roster will enable work on the overtaking lane sites to continue during this unprecedented time and continue to help support regional economies.

Traffic changes

Changed traffic conditions include reduced speed limits of 40 km/h and 60 km/h during work hours and 80 km/h after hours, which may affect travel times.

All motorists are advised to drive to the conditions and follow the directions of signs and traffic control.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

What else is happening?

The Newell Highway Program Alliance has delivered 19 of about 40 additional overtaking lanes along the Newell Highway since the program started in March 2019. A further four overtaking lanes are currently in construction.

More information on this and other overtaking lane projects along the Newell Highway can be found on our project website at nswroads.work/nhpa.

Thank you for your patience during this important work.
