

Nowra Bridge project – Night work in May

The Nowra Bridge project will provide a new four lane bridge over the Shoalhaven River, upgraded intersections and additional lanes on the Princes Highway.

Night work will continue to be carried out on the Princes Highway, Scenic Drive, and Bolong, Illaroo and Bridge roads for the safety of workers and road users and to avoid extended traffic delays during the day.

Night work will take place across the project from **Sunday 2 May to Monday 31 May**, weather permitting. Night work will occur **between 6pm and 7am**.

A summary of night work activities during May is provided over the page and a map of the work areas is below.

Location of night work

Traffic and pedestrian changes

There will be temporary traffic changes to ensure the work zone is safe. Lane closures, stop/slow traffic conditions and a 40km/h speed limit will be in place in both directions on the Princes Highway and Bolong, Illaroo and Bridge roads during the night work. Please keep to speed limits and follow the direction of traffic controllers and signs.

The footpath on the northbound bridge will be closed during some of these night work activities. Signage will be in place advising of detours during these closures.

| Location | Activities | Occurrence |
|---|--|--|
| Bolong Road | Placing and removing temporary traffic barriers, loading and placement of material, relocating gas, installing and commissioning electrical and telecommunications cables. | Up to 21 nights |
| Princes Highway (between Mattes Way and Illaroo Road) | Placing and removing temporary traffic barriers, loading and relocating material, signage and street lighting, asphalt paving, line marking, removal and installing kerb, relocating sewer and gas, installing and commissioning electrical and telecommunications cables. | Up to 21 nights |
| Illaroo Road | Placing and removing temporary traffic barriers, asphalt paving, line marking, removal of kerb, pavement works, installing drainage, relocating sewer and gas, installing and commissioning electrical and telecommunications cables. | Up to 21 nights |
| Princes Highway (between Shoalhaven River and Moss Street) | Placing and removing temporary traffic barriers, loading and placement of material, signage and street lighting, asphalt paving, installing kerb and gutter, installing drainage, installing and commissioning electrical and telecommunications cables. | Up to 21 nights |
| Bridge Road | Placing and removing temporary traffic barriers, kerb and gutter, material movements for earthworks, installing street lighting, installing drainage, installing and commissioning electrical and telecommunications cables. | Up to 21 nights |
| Scenic Drive compound | General office activities, pre-starts, vehicle movements and deliveries. | Up to 21 nights |
| Casting yard and temporary rock platform | Continuing with piling activities including placing reinforcement, moving barges and machinery and unloading, positioning, drilling and welding piles. | Monday to Friday until 7pm, with up to four occasions until 8pm. |
| | To ensure the quality and strength of the concrete elements of the new bridge, we will complete overnight concrete pours for the piers and bridge deck structures. These concrete pours may start as early as midnight to 2am and continue into normal working hours. This work will involve delivery of concrete to site, concrete pump trucks, and use of vibration equipment to place and compact concrete. | Up to four overnight concrete pours. |

How will the work affect you?

During this work we will be using machinery and equipment that generate light, noise and vibration. We will make every effort to minimise disruption. Residents will have access to and from their properties at all times and properties affected by utility service outages will be notified separately by the service provider.

Oversize machinery and equipment may be delivered to these areas at night to avoid extended traffic delays during the day.
