

Night work on Scenic Drive, Nowra, for vegetation removal and service investigations

The Australian and NSW Governments are funding a new four-lane bridge over the Shoalhaven River, upgrading intersections and building additional lanes on the Princes Highway.

Vegetation removal and service investigations will take place at the eastern end of Scenic Drive, Nowra

What we are doing?

We are removing trees and vegetation at the eastern end of Scenic Drive and in Moorhouse Park next to the Princes Highway. This will allow us to build a construction compound for the Nowra Bridge project. Work will include removing trees and branches which will be mulched and reused across the project.

Work will be carried out during standard working hours. To reduce the impacts to motorists and pedestrians, work close to surrounding roads will be done at night. We will work for up to two nights from **Thursday 21 May** (weather permitting) between **6pm and 5am**. Service investigations may also occur at the same time

One northbound lane on the Princes Highway approaching the bridge will be temporarily closed during the night work. Access will be maintained between Bridge Road and the Princes Highway. Highway motorists should allow an additional 10 minutes travel time during night work.

Please see the map of the work area over the page.

Electronic message signs will in place on the Princes Highway to advertise work in advance.

How will the work affect you?

We will make every effort to minimise disruption including noise and light by scheduling noisier activities earlier in the night. Where possible, we will position equipment away from properties and turn off machinery when not in use.

Residents will have access to and from their properties at all times.

Location of night work for vegetation removal

Traffic changes

Changed traffic conditions will be in place during the night work including a temporary lane closure, stop/slow traffic control and a reduced speed limit of 40km/hr to ensure the work area is safe.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

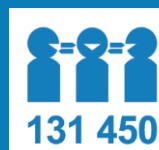

Thank you for your patience during this important work.
