Nowra Bridge project

Changed traffic conditions on Bridge Road

The Nowra Bridge project will provide a new four lane bridge over the Shoalhaven River, upgraded intersections and additional lanes on the Princes Highway.

Restricted left turn from Bridge Road

There will be changed traffic conditions from next week on Bridge Road while work is carried out as part of the Nowra Bridge project.

The left turn slip lane from Bridge Road onto the Princes Highway will be closed while work is carried out to replace the road pavement in this area.

Left turn movements from Bridge Road will be permitted under traffic control. To avoid delays, motorists are advised to use Moss Street or North Street to access the northbound lanes of the Princes Highway. Heavy vehicles will be detoured via Moss Street during this time.

Work will be carried out from 7pm Sunday 13 November for up to two weeks, weather permitting.

Electronic signs will be in place before and during these changes to advertise detours in advance.

Traffic changes to left turn out of Bridge Road

Weekend closure of Bridge Road

As we get closer to the final stage before the new bridge opens to traffic, work to prepare the surrounding roads and approaches will be carried out.

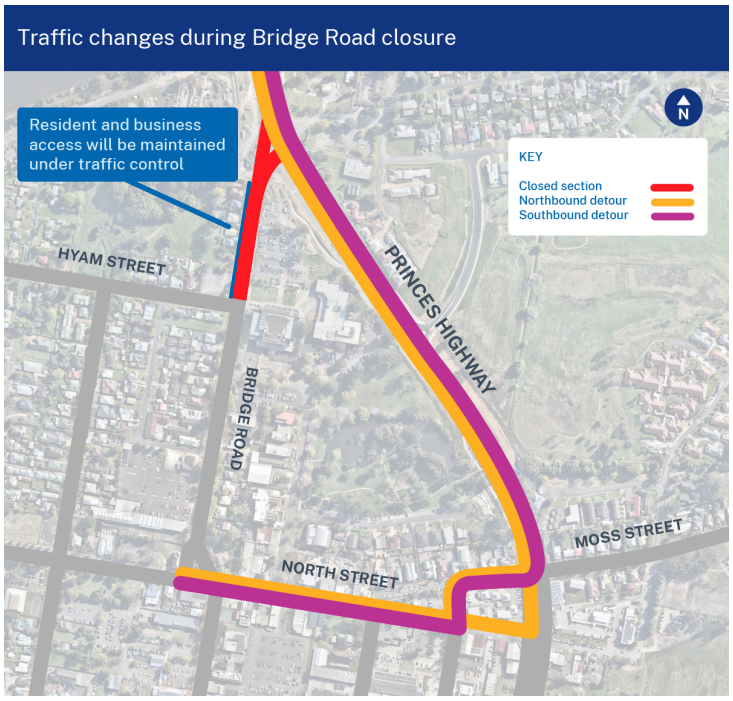
In the coming weeks, Bridge Road, between the Princes Highway and Hyam Street, will be closed while work is carried out to replace road pavement near the intersection with the Princes Highway.
Work will be carried out from 7pm Friday 2 December to 6am Monday 5 December 2022, weather permitting.

During this time, southbound motorists on the Princes Highway will be detoured via Moss Street to access the Nowra CBD. Road users wanting to access the Princes Highway from the Nowra CBD will be detoured via North Street, Moss Street and surrounding local roads.

Resident and business access will be maintained under traffic control between the Princes Highway and Hyam Street.

Electronic signs will be in place before and during these changes to advertise detours in advance. Road users are advised to drive to the conditions, and follow the directions of signs and traffic control.

Bridge Road will be required to close for a second weekend in early 2023, before the new bridge opens to traffic.



Pedestrian changes during work

There will be changes to pedestrian access around the Princes Highway and Bridge Road intersection during work. Changes will be in place from 7pm Sunday 13 November for up to two weeks, weather permitting.

Pedestrians and path users will be required to use the footpath on the western side of Bridge Road, and use the signalised crossings on the Princes Highway and Pleasant Way to access footpaths across the river.

The path on the northbound bridge will be closed during these works. Pedestrians and path users will be detoured via the path on the southbound bridge.

Maps detailing changes are attached to this notification, and signs will be put in place in advance.
