

## Night work for upcoming traffic changes on the Princes Highway, Nowra

The Nowra Bridge project will provide a new four lane bridge over the Shoalhaven River, upgraded intersections and additional lanes on the Princes Highway.

### What are we doing?

We are installing traffic barriers, building footpaths, clearing vegetation and relocating utilities as part of the Nowra Bridge project. Work will be carried out on the Princes Highway, Scenic Drive, and Bolong, Illaroo and Bridge roads. This work will allow us to shift highway traffic to the east and create a safe work area to begin widening the Princes Highway later this year.

The work will take place from **Sunday 6 September for up to four weeks** (weather permitting). Our night work hours will be from **Sunday to Thursday between 6pm and 5am** to reduce the impacts to motorists.

The southbound bridge will also be closed for two nights on **Wednesday 16 and Thursday 17 September between 8pm and 5am** for routine maintenance and deck repair work.

Should the work need to be postponed, new dates will be advertised on variable message signs. A map of the work area is provided over the page.

### How will the work affect you?

There may be some noise and light associated with this work. We will make every effort to minimise disruption to residents by scheduling noisier activities earlier in the night. Where possible, we will position equipment away from properties and turn off machinery when not in use. Residents will have access to and from their properties at all times.

### Traffic changes

All traffic on the Princes Highway between Moss Street and Bolong Road will move to the east from Sunday 6 September, weather permitting. The existing number of lanes on the highway will be maintained during daytime and peak hours but there will be changes to line marking. Lane closures and restrictions may be in place during night work.

For the safety of workers and road users, the left turn on red from Illaroo Road onto the highway will also no longer be permitted.

During the closure of the southbound bridge, traffic will be reduced to one lane in each direction, with both directions utilising the northbound bridge.

There will be temporary traffic changes to ensure the work zone is safe. Lane closures and a 40km/h speed limit will be in place in both directions on the Princes Highway, Bridge Road and Illaroo Road during the night work. Motorists should allow up to 10 minutes extra travel time during night work.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.
