

Installation of new clearways on Old Windsor Road from Kellyville Ridge to Glenwood

Roads and Maritime Services | April 2018

The NSW Government is funding this project as part of its \$121 million Clearways Program, which aims to reduce congestion and delays on Sydney's roads.

Roads and Maritime Services is installing new 24 hour clearways on Old Windsor Road between Windsor Road, Kellyville Ridge and the M7 Motorway, Glenwood. This is a continuation of the recent new and extended clearways on Old Windsor Road from M7 Motorway, Glenwood to Hart Drive, Constitution Hill, which became operational in March 2018.

The new clearway hours on Old Windsor Road are shown on the map.

Changes to the new clearways will be operational from **Monday 14 May 2018**.

The new clearways will replace the existing 'No Stopping' and 'No Parking' restrictions.

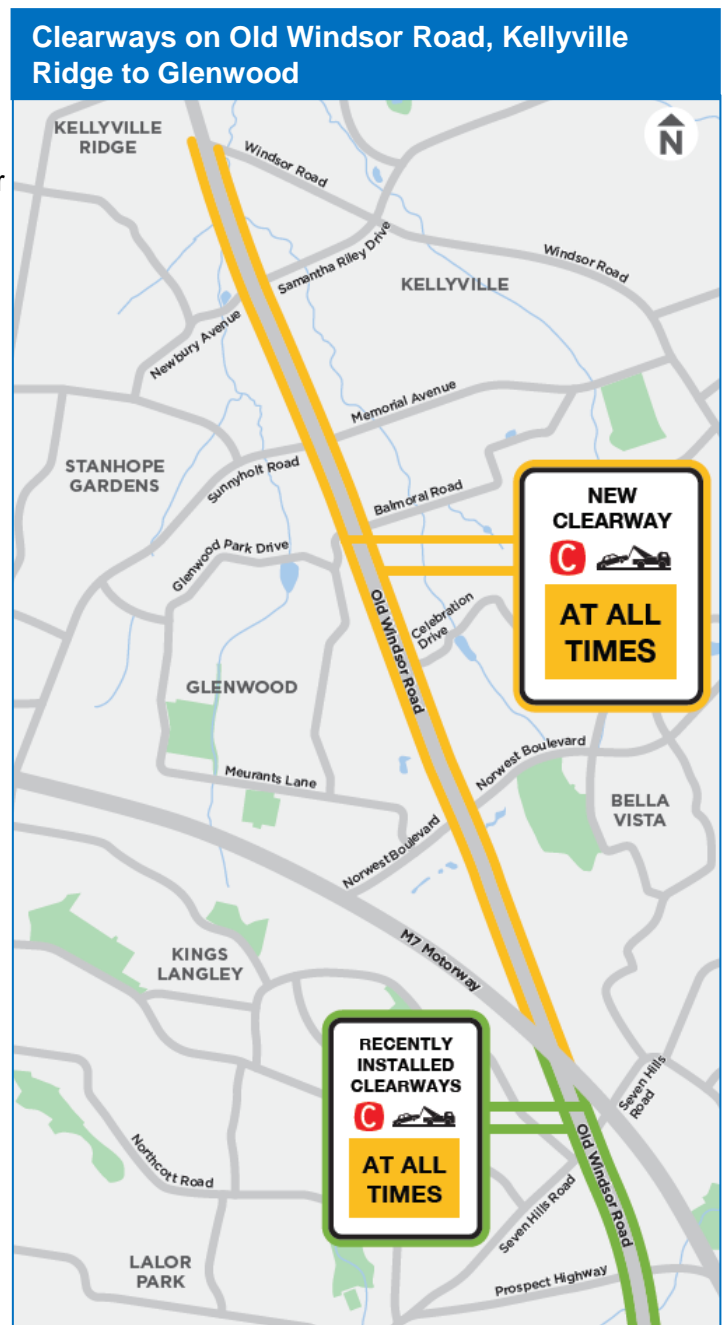

The existing North West Transitway will continue to operate with no change.

What happens next?

The new clearway signs and posts will be installed between **Saturday 5 May 2018** and **Sunday 13 May 2018** weather permitting. Our working hours will be between **8pm** and **5am** from **Monday** to **Sunday**.

During the installation work, there will be some temporary traffic changes to ensure the work zone is safe. Lane closures will be in place and may affect travel times. Please keep to speed limits and follow signs and traffic controllers' directions.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

How will the work affect you?

There will be some noise associated with this work but we will do everything we can to minimise its impact, including completing the noisier tasks by **11pm**.

If you have any questions about the installation works, please contact our delivery partner, DM Roads on 1800 332 660.

What is a clearway?

A clearway is a section of road where stopping and parking is not allowed during the times shown on the clearway sign. Clearways are put on key arterial roads where traffic is often heavy and congested. They help keep vehicles moving by making all lanes available to motorists. The only exception is the stopping of buses and taxis dropping off or picking up passengers as well as emergency vehicles.

The new and extended clearways will help to improve traffic flow and reduce delays by allowing us to tow vehicles that stop illegally or break down. This will ensure all lanes are available to traffic when the roads are near capacity.

Any vehicles parked in a clearway will risk being fined and towed.

To report a vehicle parked in a clearway or if your vehicle has been towed from a clearway, please call Transport Management Centre on 131 700.
