

Parramatta Wharf upgrade

SEPTEMBER 2018 COMMUNITY NOTIFICATION

Artist's impression of the new Parramatta Wharf viewed from the river

The NSW Government is upgrading Parramatta Wharf as part of the Transport Access Program. Following feedback from the community, the Review of Environmental Factors for the project has been finalised.

The upgrade of Parramatta Wharf is part of a wider program of transport improvements for the Parramatta River, including upgraded wharves and increased ferry services. The Parramatta Wharf design has been developed following feedback from the community and aims to balance safety, accessibility, efficient ferry operations and environmental impacts. The Review of Environmental Factors was on display for comment in April and May 2018. Roads and Maritime received three submissions relating to the proposal and has prepared a submissions report which summarises the feedback and responses. The Review of Environmental Factors and submissions report can be viewed at rms.nsw.gov.au/parramatta-wharf.

The upgrade of Parramatta Wharf is expected to start before the end of 2018 and customers will be advised before the temporary closure of the wharf and start of work.

Due to further planning required before construction can start, the Parramatta Wharf upgrade will be starting after the Rydalmere Wharf upgrade. Rydalmere Wharf will be closed from Wednesday 3 October for about five months, weather and maritime conditions permitting. Construction management will allow ferries to continue to operate to Parramatta during the Rydalmere Wharf upgrade until the Parramatta Wharf closes for upgrade. For alternative transport arrangements during the temporary closure of Rydalmere Wharf visit transportnsw.info or call 131 500.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Roads and Maritime Services on **1800 770 973**. The interpreter will then assist you with translation.
