

Parramatta Wharf upgrade

Staffed display – Sunday 24 May, 2015

The existing Parramatta Wharf

Transport for NSW is proposing to upgrade Parramatta Wharf and interchange as part of the Transport Access Program - an initiative to deliver modern, safe and accessible transport infrastructure.

You are invited to have your say at a community information drop in session. We would like to know more about how you travel to the ferry, when you use the service, your views about the current facilities and priorities for improvement.

Where: Parramatta Wharf waiting area

When: Sunday 24 May, 2015 between 9am and 12pm.

You are welcome to drop in any time between these hours.

Transport for NSW is improving Sydney's ferry services for customers. The upgraded wharf will provide:

- Improved customer amenity such as better protection from the wind, rain and sun, seating and waiting areas
- Improved safety for customers

- Improved access for mobility impaired customers and customers with prams
- Quicker and more efficient boarding and disembarking
- Increased wharf capacity for future growth of ferry services
- More efficient interchanges with other modes of transport, both public and private, and better way finding signage.

Visit our website (details below) to find out more about the Wharf Upgrade Program and complete our online survey. The closing date for this initial round of general feedback is Sunday 17 June, 2015. Further consultation will be held on the preferred design for the wharf and interchange upgrade later in the year.

If you would like more information about the Parramatta Wharf and interchange upgrade you can:
