

Intersection improvements on Pennant Hills Road and Carlingford Road, Carlingford

Close of consultation

Transport for NSW | November 2022

Transport for NSW is proposing to upgrade the intersection of Pennant Hills Road and Carlingford Road, in Carlingford to ease congestion, improve travel times and safety for all road users.

Transport for NSW invited community feedback on proposed intersection improvements on Pennant Hills Road and Carlingford Road, Carlingford between Tuesday 17 May and Sunday 12 June 2022.

A 'Have Your Say' was widely distributed to residents, businesses and stakeholders in the area. The community notification provided details about the proposed design and how people could have their say.

Stakeholders and community members were encouraged to provide feedback, leave

comments and make submissions via email, mail or phone contact.

The community were also able to provide feedback via the online community information session held on 7 June 2022.

The 'Have Your Say' and project webpage link was also advertised via the Transport for NSW Facebook page over the consultation period.

What you told us

We received feedback from 108 respondents, including feedback from City of Parramatta Council. Of the 108 submissions, 33 responses were supportive or partially supportive of the proposal, nine responses were against the proposal and 66 did not state a preference, instead focusing their submission on particular areas of concern or interest.

Key matters raised included:

- support for various aspects of proposed intersection improvements on Pennant Hills Road and Carlingford Road, Carlingford
- requests to increase the project scope to include improvements at the intersections of Pennant Hills Road and Post Office Street, and Pennant Hills Road and Moseley Street, Carlingford to relieve congestion and improve safety issues on local streets leading into Pennant Hills Road
- requests to change the proposed configuration of lanes on Carlingford Road westbound to provide two left turn and two right turn lanes
- requests to retain the existing left turn bay from Carlingford Road eastbound into Rembrandt Street
- requests for further information on various aspects of the proposed intersection improvements on Pennant Hills Road and Carlingford Road, Carlingford.

How we responded

Transport for NSW would like to thank the community for providing feedback and for their interest in the project. We have carefully considered all feedback received and responded to all submissions in a Community Consultation Report. The report is available for viewing or download at nswroads.work/phrcarlingford

After considering all responses from the 'Have Your Say' community consultation, along with the proposal's safety aims and design requirements, Transport for NSW has decided

to proceed with the proposal to concept and detailed design.

During the concept design phase, Transport for NSW will investigate possible changes to the proposed configuration of lanes on Carlingford Road westbound to introduce two dedicated left turn and two dedicated right turn lanes. We will also investigate the option to preserve the existing left turn bay from Carlingford Road eastbound to Rembrandt Street northbound.

The community will be updated on the outcomes of these decisions as soon as they are known.

Transport for NSW will continue to communicate with the community and stakeholders as the proposal progresses.

Keeping you up to date

We will continue to keep the community informed as the proposal progresses by community notifications and project webpage updates. If you would like to receive project updates direct to your email, please email parramatta@transport.nsw.gov.au and we will add you to the distribution list.
