

Intersection of Pennant Hills Road and North Rocks Road

HAVE YOUR SAY

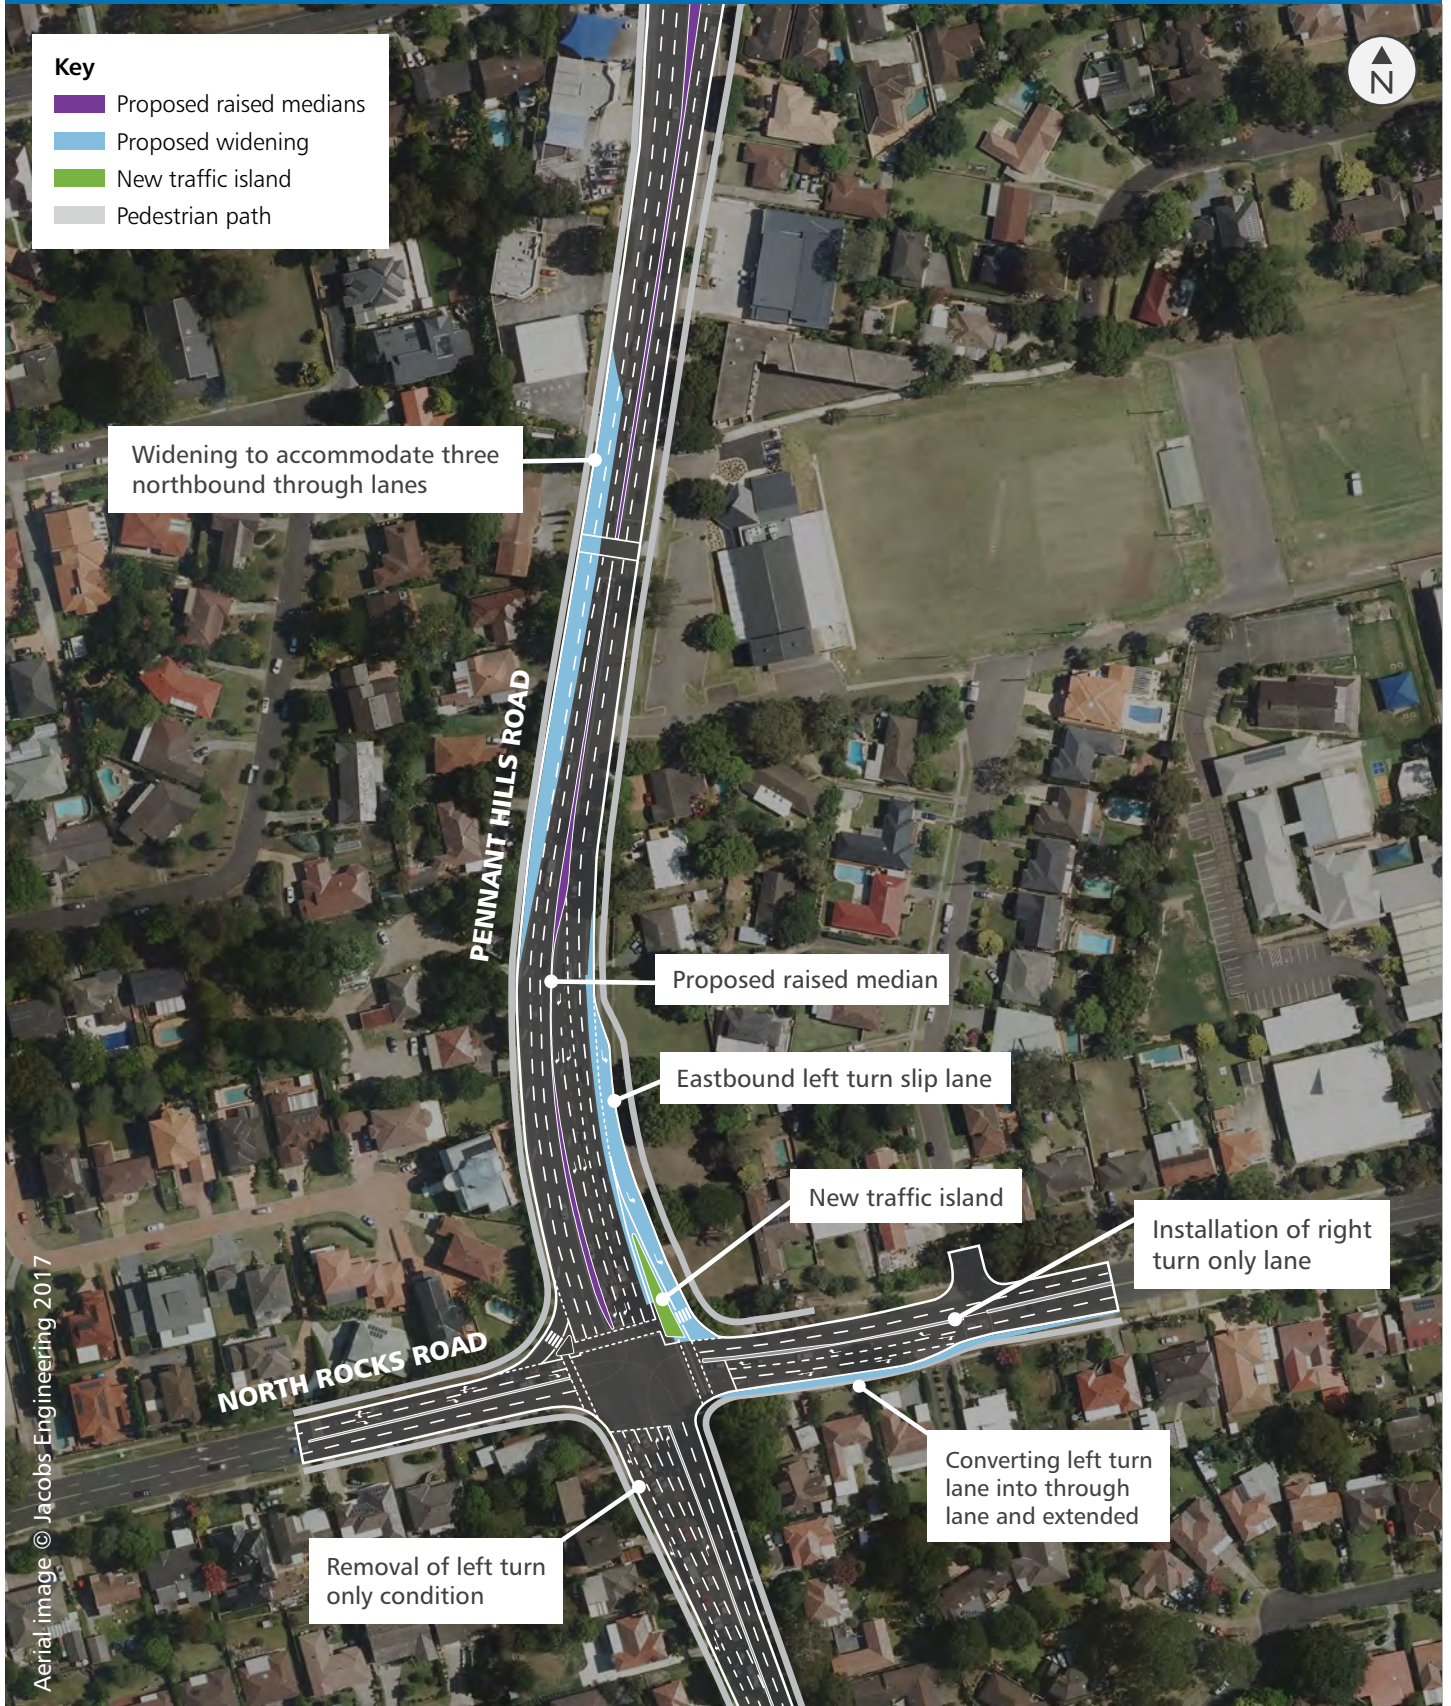

Proposed intersection improvements on Pennant Hills Road at North Rocks Road, Carlingford

December 2017

The NSW Government is funding a proposal as part of its \$300 million Urban Roads Pinch Point Program, which aims to reduce congestion and improve travel times on Sydney's busiest corridors.

Roads and Maritime Services is seeking your feedback by **Friday, 15 December** on proposed intersection improvements on Pennant Hills Road at North Rocks Road, Carlingford.

Proposed intersection improvements on Pennant Hills Road and North Rocks Road, Carlingford

Currently, motorists are experiencing long delays travelling through the intersection of Pennant Hills Road and North Rocks Road. The aim of this proposal is to increase the capacity of the intersection by reducing queue lengths and improving safety.

The proposal includes:

- widening on the west side of the Pennant Hills Road to accommodate three north bound through lanes
- installing a new traffic island in the North East corner of the intersection
- installing a separated left turn lane for motorists travelling southbound and turning left from Pennant Hills Road into North Rocks Road
- installing a dedicated right turn lane for motorists travelling westbound and turning right from North Rocks Road into Pennant Hills Road
- installing a raised median in the centre of Pennant Hills Road
- adjusting driveways and footpaths
- adjusting utilities, street lighting, drainage, signage and line marking

Benefits would include:

- travel time saving for motorists using the intersection
- reduced queue lengths for motorists travelling in both directions on Pennant Hills Road
- improved safety at the intersection, with a reduction in the number of rear-ends crashes and crashes involving motorists changing lanes
- reduced traffic delays due to a better flow of traffic for motorists at all points of the intersection.
