

South Batemans Bay Link Road – pavement investigation and geotechnical work from Monday 17 May

Transport for NSW will carry out pavement investigation and geotechnical work on the Princes Highway, south of Batemans Bay.

What are we doing?

We will be carrying out pavement investigation work on the Princes Highway between Cranbrook Road and Mills Fishing Road, Batemans Bay to inform the pavement design for the South Batemans Bay Link Road project. We will be working from **Monday 17 May to Thursday 20 May**, between **7am and 5pm**, weather permitting.

We will also be carrying out geotechnical investigations in the project area from **Tuesday 18 May to Wednesday 26 May**, weather permitting. This work will involve borehole drilling and geological mapping, with no impact to the Princes Highway. Our work hours will be between **7am and 5pm on weekdays** and **8am and 5pm on weekends**.

How will the work affect you?

During the pavement investigation work from **Monday 17 May to Thursday 20 May** there will be temporary traffic changes to ensure the work zone is safe.

Lane closures will be in place on the Princes Highway with a stop/slow arrangement and a reduced speed limit of 40km/h between Cranbrook Road and Mills Fishing Road, Batemans Bay.

There will be some noise associated with this work and we will make every effort to minimise disruption.

Motorists are advised to allow up to five minutes additional travel time and follow the direction of signage and traffic control.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Thank you for your patience while we carry out this essential work.
