

Stacey Street and the Hume Highway, Bankstown Upgrade

Project update | August 2019

The intersection of Stacey Street and the Hume Highway, Bankstown

The NSW Government is investing in the planning and development of the upgrade to reduce congestion and improve safety in Bankstown.

Roads and Maritime Services is continuing to plan the potential upgrade of a 2.2 kilometre section of Stacey Street and the Hume Highway, Bankstown. The proposed upgrade will involve widening Stacey Street to create a divided six lane road. Key intersections will also be upgraded and new shared pathways will be developed.

The expected benefits of the upgrade are:

- improved road safety
- improved travel times and reliability
- reduced congestion
- increased capacity
- improved pedestrian and cyclist facilities
- improved freight movements and efficiency

Investigation work

Over the last few months, we have been looking at ground conditions, utilities and drainage along the corridor to help us to develop a proposed design

for the upgrade. These investigations have revealed additional factors we need to confirm before our plans can be finalised so we need to extend the duration of our work in the area.

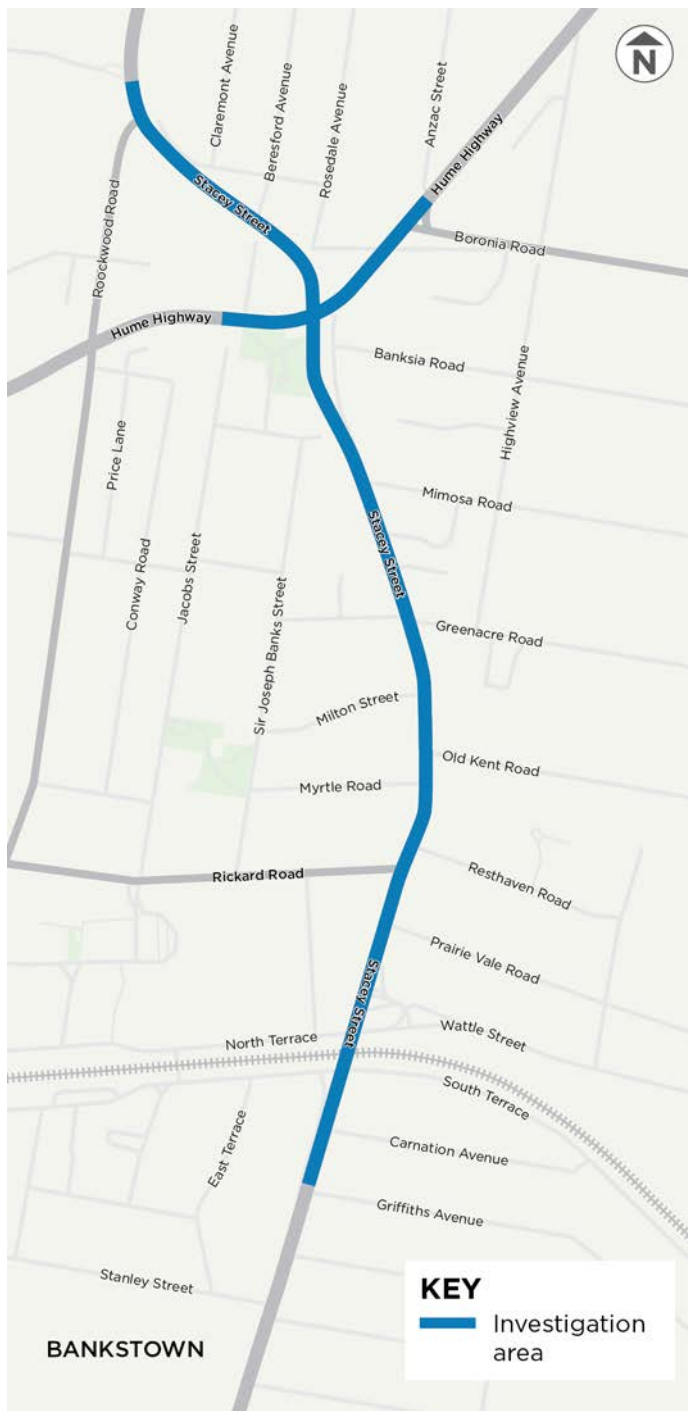

Our work will continue for an additional **20 day shifts** and **20 night shifts** between **Monday, 26 August** and **Friday 1 November**, weather permitting. Our work hours will be between **7am** and **5:30pm Monday to Friday**. Our night work hours will be between **9pm** and **5am Sunday to Thursday**. We will not work on public holidays.

How will the work affect you?

Our work may be noisy at times but we will do everything we can to minimise its impact, including completing the noisier tasks by midnight.

We will plan night work to ensure local residents are not affected for more than two consecutive nights or for more than six nights a month.

We will be directly contacting affected residents and businesses over the course of our work.

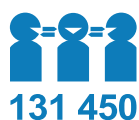

Where are we now and next steps?

The project is in the concept design stage. Our investigations are helping us design the new road, including where it should be widened, as well as other improvements. Once further details on the project are known, the community will have the opportunity to ask questions and provide feedback on the proposed design.

Hume Highway to Stacey Street, Bankstown
