BUILDING OUR FUTURE

December 2017

Update: Airport East precinct upgrade – Traffic changes on Joyce Drive

The Australian and NSW Governments are upgrading roads east of Sydney Airport to improve traffic flow and access to the airport and Port Botany.

We wrote to you recently about traffic changes on Joyce Drive between **Friday 24 November** and **13 December**. Due to unforeseen circumstances, these traffic changes will now continue until **21 December 2017**. This work is weather and construction conditions dependent.

Our planned work during this time has not changed and will include road work, service relocation and new pavement being installed so that both of the westbound traffic lanes on Joyce Drive can be moved onto the newly constructed road.

There may be some noise, dust, vibration and disruption associated with this work. Machinery and equipment used will include milling machines, paving machinery, rollers, trucks, road sweepers, water carts and concrete trucks and equipment.

Traffic and electronic message signs will help keep motorists informed of these changes and when they are occurring. Please keep to speed limits as roadwork speed limits are enforceable and follow the direction of traffic controllers and signs.

For the latest traffic updates, call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Construction hours

Standard construction hours for the project are between **7am** and **6pm** from Monday to Friday and between **8am** and **1pm** on Saturday, excluding public holidays.

Out of hours work is necessary due to the traffic conditions in the area and the limitations of working next to the Sydney Airport east west runway and the Port Botany Freight Rail Line. Night work will be carried out between **9pm** and **5am**, up to five nights a week, weather permitting.

Contact

If you have any questions, please contact our delivery partner John Holland Group on **1300 862 844** or comms.airporteast@jhg.com.au. For more information on the project and to view the work area map, visit www.rms.nsw.gov.au/sydneyairport.

Thank you for your patience during this important work.
