

Kirribilli Markets relocation

Sydney Harbour Bridge Cycleway
Northern Access Project

November 2022

Transport for NSW (Transport) is proposing to upgrade access at the northern end of the Sydney Harbour Bridge Cycleway by providing a bike ramp and upgraded cycle path along Alfred Street South, Milsons Point.

Planning is underway and a Review of Environmental Factors (REF) has been prepared for the project to assess the potential impacts on the environment and compliance with the *NSW Environmental Planning and Assessment Act (1979)*.

The REF public display period provides another opportunity for interested stakeholders and community members to provide feedback that will be considered and assessed as part of the environmental approval process. Transport is committed to working together with community and stakeholders on impacts identified in the REF.

About the Kirribilli Markets relocation

Due to the location of the construction zone and a temporary compound, the Kirribilli Markets will need to be temporarily moved to an alternate location during the construction period.

We recognise the significance of the markets to the fabric of the community and its contribution to the local economy. We have been working closely with market management on a suitable alternate location for the duration of construction.

It is proposed that the Kirribilli Markets move to Ennis Road, Milsons Point during the 18-month construction period, which we anticipate will start in mid-2023. Burton Street Tunnel will remain available for stalls.

Community consultation

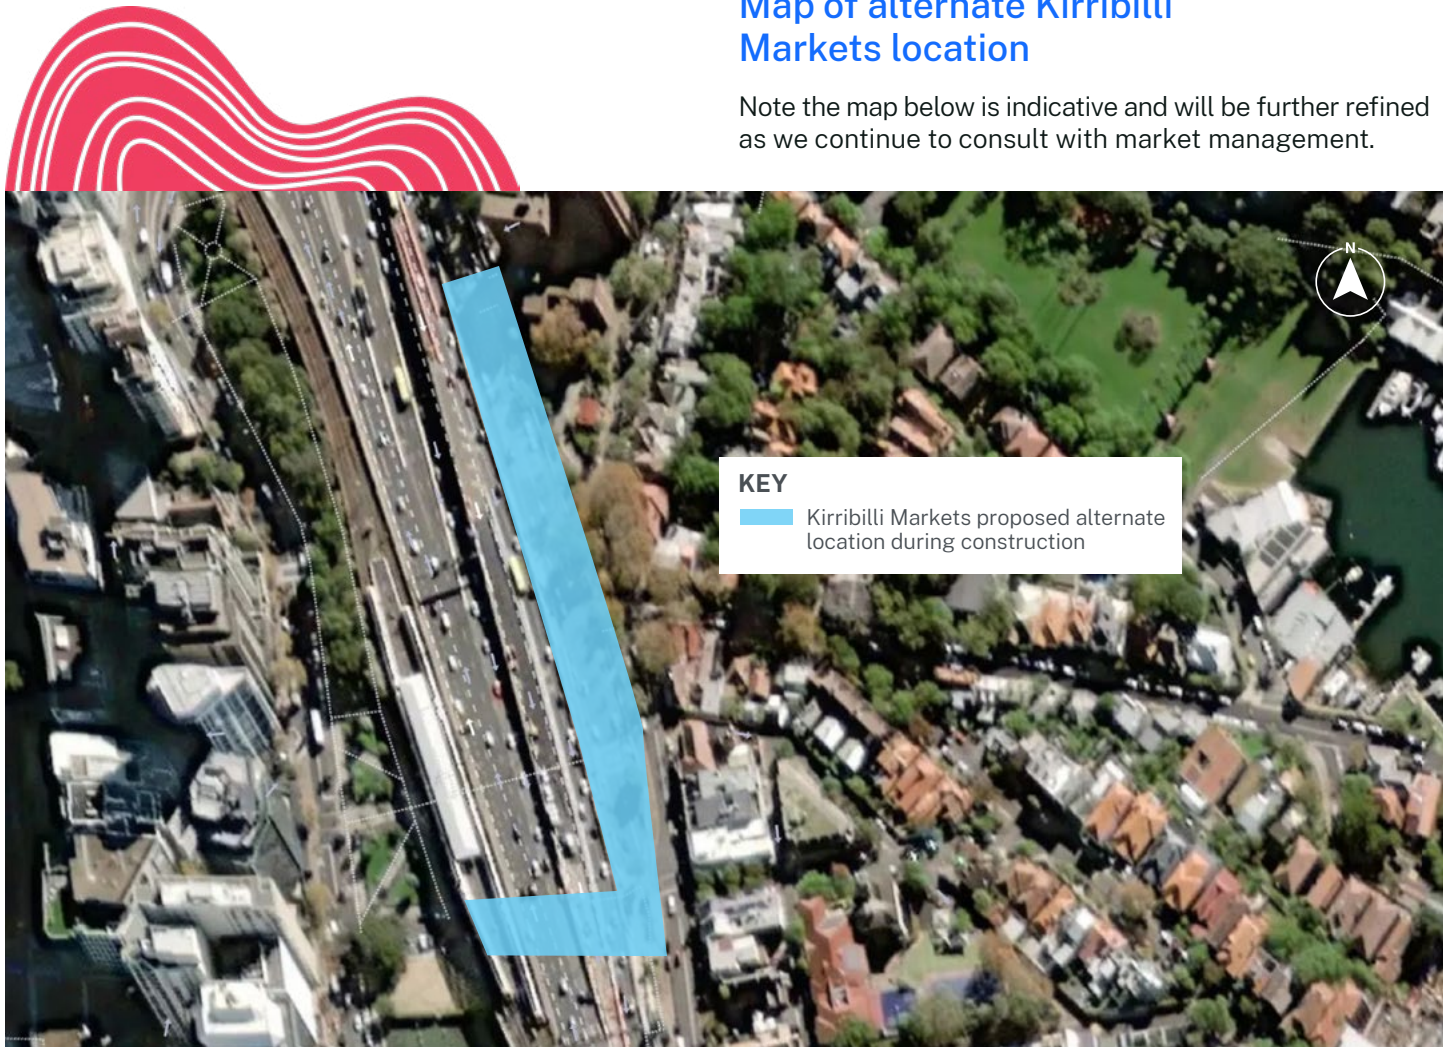

We will continue to support and consult with market management and provide more information to stall holders and the community as the project progresses.

Targeted consultation will occur with local businesses and residents, tenants of the Greenway housing complex, and users of Go Get car share vehicles as the project progresses as we acknowledge the relocation may have flow on impacts to these stakeholders.

During construction, we will continue to consult with residents and businesses around Ennis Road to keep them informed and updated of traffic changes and other impacts associated with proposed relocated market operations.

Map of alternate Kirribilli Markets location

Note the map below is indicative and will be further refined as we continue to consult with market management.

For more information and to access the REF

You can access the full REF on our Interactive Portal or by scanning the QR code below. Chapter 6.6 of the REF includes a socio-economic assessment which covers the Kirribilli Markets.
