

# Sydney Olympic Park Wharf upgrade

## Community update

JUNE 2014

The existing Sydney Olympic Park Wharf viewed from the water.

The NSW Government is upgrading Sydney Olympic Park Wharf as part of the Transport Access Program. It is expected work will start in late 2014 and construction will take about five months. Sydney Olympic Park Wharf will be closed during this period.

### Background

The NSW Government is progressively upgrading ferry wharves across Sydney Harbour to improve Sydney's ferry service for customers. The new wharf is being delivered as part of the NSW Government's \$770 million Transport Access Program – an initiative to deliver modern, safe and accessible transport infrastructure. The Transport Access Program has already delivered new facilities at Milsons Point, Neutral Bay, Rose Bay, Balmain Thames Street and Huntleys Point. Upgrades at Mosman Bay and Drummoyne wharves are currently under construction.

### The new Sydney Olympic Park Wharf

The new wharf will be connected to the existing covered wharf structure and will include a new steel floating pontoon, small concrete fixed bridge and an aluminium gangway connecting the bridge to the pontoon. The new structures will be covered.

The pontoon will have a curved zinc roof, glass panels and new seating offering some protection from the weather and improved amenity.

The new wharf will provide:

- Improved safety for customers
- Improved access for mobility impaired customers and customers with prams
- Quicker and more efficient boarding and disembarking
- Future capacity for two ferries to berth at the wharf at the same time.

## Plan of proposed new Sydney Olympic Park Wharf and likely location of the site compound on land adjacent to the wharf.

## What to expect during the upgrade

The exact construction start date for the Sydney Olympic Park Wharf upgrade is still to be finalised, however it is expected to start in late 2014.

We will notify customers, local residents, local businesses and stakeholders in advance of the temporary closure of Sydney Olympic Park Wharf.

Construction will take about five months to complete, weather and maritime conditions permitting. The existing wharf will be closed during construction to enable work to be carried out. All efforts will be made by the project team to reopen the wharf as soon as possible.

A temporary construction compound will be established on land near the existing wharf. The standard work hours will be 7am to 6pm Monday to Friday and 8am to 1pm Saturday. Some of this work will be noisy.

Some early morning or night work, including the installation of piles, may be required when the water is at its calmest. This will generate noise. We will notify nearby residents prior to any early morning or night work taking place.

Equipment will include barges, cranes and service boats. Construction workers and equipment will usually be transported to and from the site by water to minimise impacts on local traffic.

## Community information session

We invite you to come along to a community information session at the Newington Community Centre on Tuesday 24 June 2014. Members of the project team will be available to provide further information about the project. You are welcome to drop in any time between 5pm and 7pm at:

**Newington Community Centre, Main Hall,  
Corner Avenue of Europe and Avenue of Asia  
Newington  
Tuesday 24 June 2014**
