

Vale Road upgrade at Perthville

October 2017

Vale Road, north of Perthville, is narrow with trees growing very close to the road

Roads and Maritime Services is planning a \$3 million upgrade of Vale Road, Perthville, to provide a stronger, longer lasting road, improve safety for road users and reduce future maintenance costs. Feedback on the concept design is invited by Monday 30 October.

Vale Road north of Perthville is rough, narrow and in need of an upgrade.

The proposed upgrade includes resurfacing and strengthening 1.7 kilometres of road from the railway crossing in Perthville to 750 metres east of Hen and Chicken Lane.

The project area includes the elm trees which form a tunnel effect on approach to Perthville.

We understand the significance of the elm trees within the community and the proposal seeks to balance improving safety and road conditions with maintaining the surrounding landscape.

The proposed upgrade has been designed to avoid impacts to the tunnel of elm trees but three trees would need to be removed to enable the road widening.

Project benefits

- A longer lasting, smoother and stronger road
- Improved safety for road users by providing wider travel lanes and sealed road shoulders
- Improved drainage and reduced maintenance costs.

Drop in sessions

Come by anytime to view the concept design and speak with project representatives at any of the following locations:

Bathurst Community Club

Wednesday 18 October

4pm-7pm

Perthville Hall

Thursday 19 October

4pm-7pm

Unstaffed display locations

The concept design will be on display at until Monday 30 October at:

- Service NSW, Bathurst
- Bathurst Regional Library
- Perthville Community Hall

Have your say

Feedback on the concept design is being invited until **Monday 30 October**. To provide your feedback:

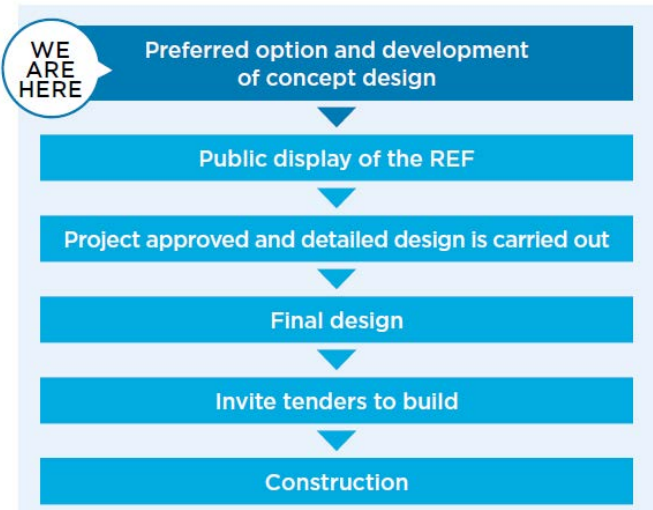

- Complete the online survey at the project webpage rms.work/valeroadupgrade
- Email western.projects@rms.nsw.gov.au
- Write to:
Attention: Vale Road Upgrade
Roads and Maritime Services
PO Box 334, Parkes NSW 2870

What happens next?

Feedback received will be considered to help finalise the concept design and prepare the environmental assessment.

The community will be invited to provide further feedback on of the Review of Environmental Factors (REF) in the coming months.

We will keep the community updated as the project progresses.
