Waterfall Way Safety Review

Centre for Road Safety

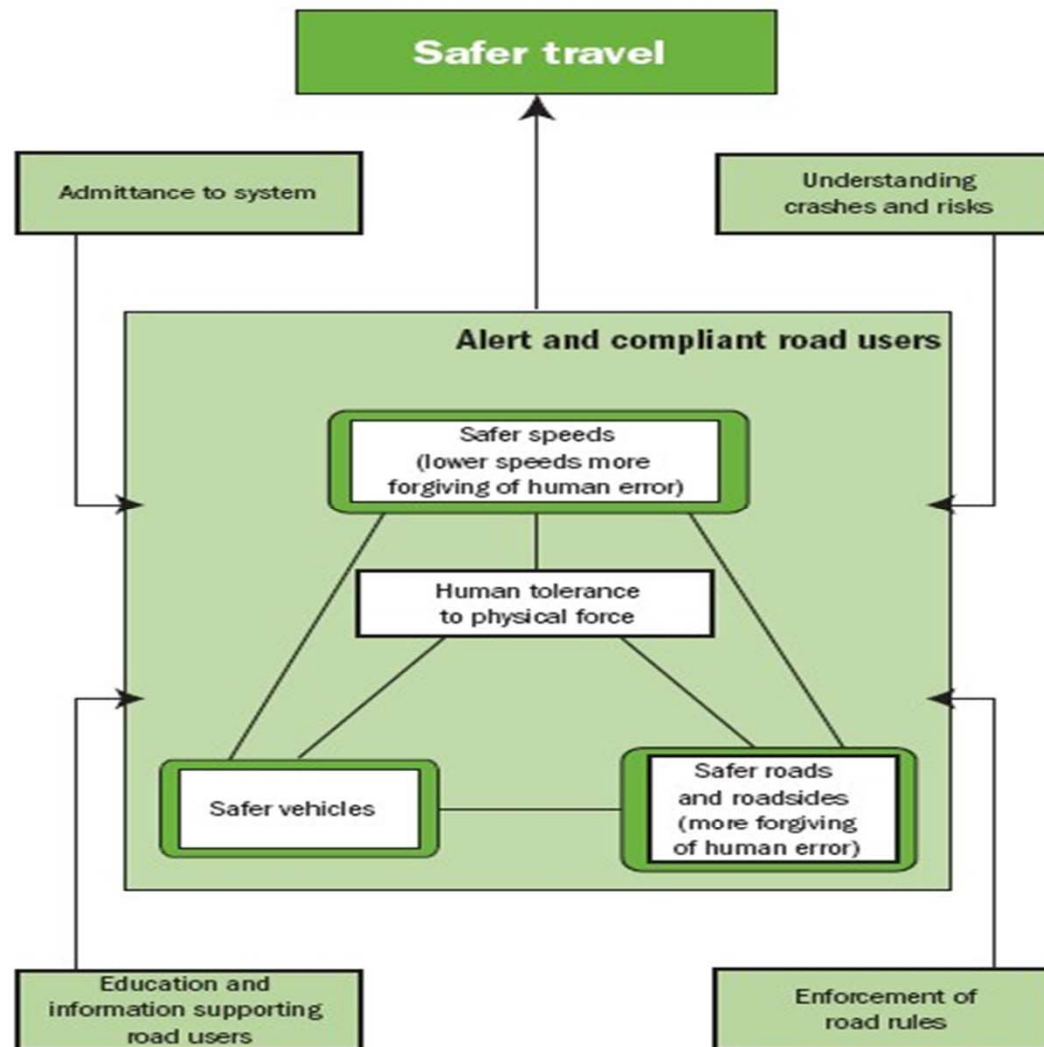

Why are we here?

- Community has raised their concerns about the Waterfall Way
- Centre for Road Safety prepared Safer Roads Program
 - Initiatives developed to reduce casualties
 - Route Safety Reviews a key initiative
- Undertaken state wide (Newell, Kings, New England, CENWEST, Oxley)

Safety Reviews

- Comprehensive, multi-disciplinary review of road safety issues.
- Involve extensive investigation and consultation including in-depth analysis of the highway's crash history, route inspections, community workshops, and consultative meetings and reporting.
- Develop holistic programs aimed at reducing the road toll by providing low cost, effective safety engineering works, enforcement and behavioural programs.

The Safe System

- Casualty crashes
 - Wide range of factors
 - Vehicles, Speed & Road Environment
 - Factors can only be partly controlled
- Therefore, accommodate road user error by ...

- i. Safer Roads
- ii. Safer Vehicles
- iii. Safer Speeds
- iv. Behaviour
- v. Enforcement
