

## Detour of the Castlereagh Highway at Capertee on Thursday 13 October

### Essential Energy is carrying out essential recovery work on the Castlereagh Highway near Capertee

The work includes the recovery of a fallen high voltage power pole following a landslip on Saturday 8 October. We have included a map to show the location of the works.

The work will be carried out between **7am** and **3pm** on **Thursday 13 October** and is expected to be complete in one day, weather permitting.

### How will the work affect you?

The work will involve machinery which generates noise. We will make every effort to minimise this completing noisier activities earlier in the night and turning off machinery and vehicles when not in use.

### Traffic changes

The Castlereagh Highway will be closed between Capertee and Ben Bullen from 7am to 3pm on Thursday 13 October. Detours will be in place as below:

- Vehicles up to 19 metres in length will detour via Bathurst using Sofala Road and Great Western Highway in both directions. This will add approximately 40 minutes additional travel time
- Vehicles over 19 metres in length travelling between Mudgee and Marangaroo will need to divert via Wellington, Molong, Orange and Bathurst in both directions. This will add approximately 2 hours and 20 minutes additional travel time

Traffic control and reduced speed limits will also be in place during work hours and may affect travel times. Motorists should allow extra travel time during this work.

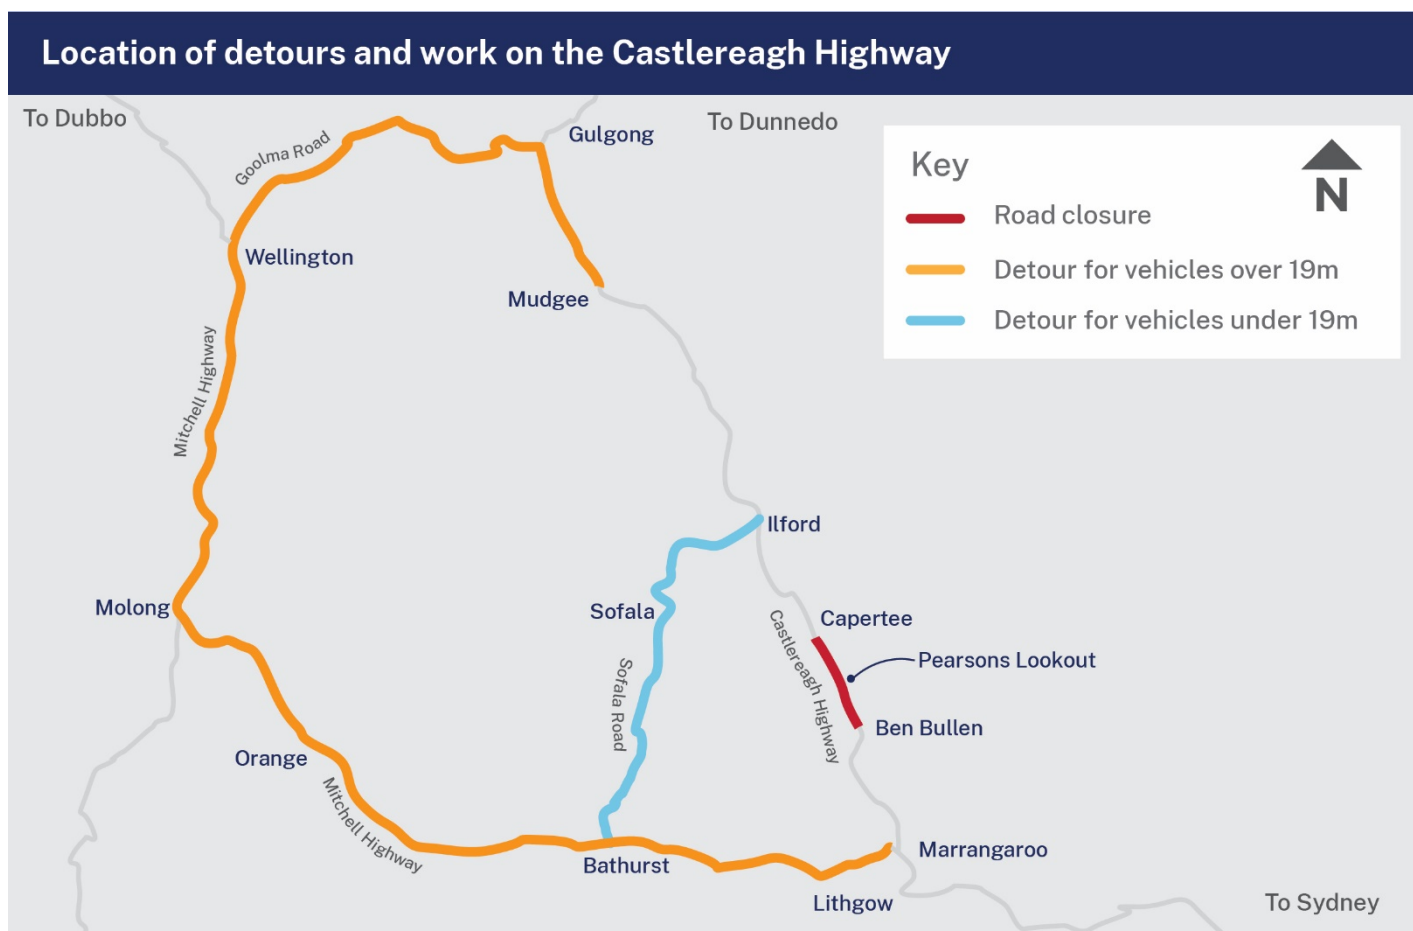

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.

### Contact

If you have any questions, please contact our Western Project Team on 1800 167 499 or email
