

Western Harbour Tunnel and Beaches Link - geotechnical investigations along the Warringah Freeway corridor, North Sydney from Tuesday, 2 October 2018

Roads and Maritime Services is carrying out geotechnical testing for the Western Harbour Tunnel and Beaches Link program

In August, Roads and Maritime Services let you know we were carrying out geotechnical testing along the Warringah Freeway corridor between Falcon Street and Pacific Highway, North Sydney between Sunday, 2 September and Sunday, 9 September.

Due to weather conditions and technical reasons, we now need to amend the timing for works on the Warringah Freeway corridor **between Miller Street and Pacific Highway**. Our works will now be between **Tuesday, 2 October** and **Thursday, 18 October**, weather permitting.

We have included a map overleaf to show the location of the work.

Our new work schedule

We will be on site for **six nights** between **8pm and 5am** between **Tuesday, 2 October** and **Thursday, 18 October**, weather permitting.

How will the work affect you?

Works will generally be for short durations and will be a low noise level when compared to existing background noise. We will make every effort to minimise noise by turning off machinery and vehicles when not in use.

Geotechnical testing involves drilling small diameter holes (about the size of an orange) to extract rock samples used for scientific testing and analysis.

Traffic changes

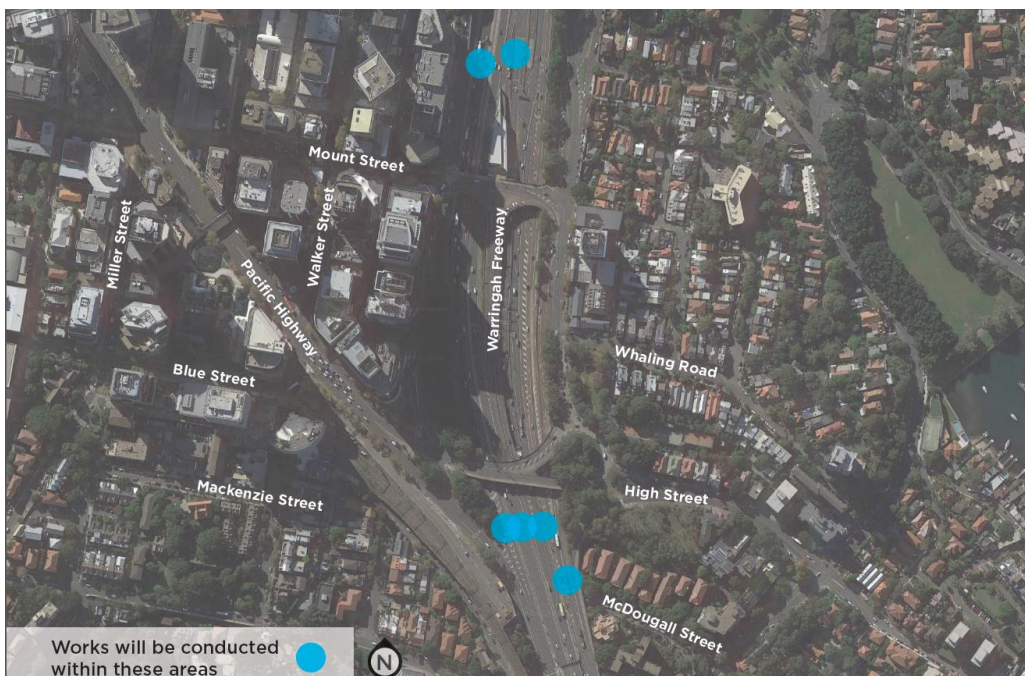

Some temporary traffic changes may apply to ensure the work zone is safe. Appropriate site controls will be in place including traffic controls if required. If traffic controls are required, please observe all signage and follow instructions of traffic controllers.

Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

If you have any questions please contact us on 1800 931 189 during office hours (8.30am to 5pm Monday to Friday) or whtbl@rms.nsw.gov.au. Thank you for your patience during this important work.
