

Western Harbour Tunnel and Beaches Link - geotechnical investigations along the Warringah Freeway corridor, Cammeray from Tuesday, 2 October

Roads and Maritime Services is carrying out geotechnical testing for the Western Harbour Tunnel and Beaches Link program

In August, Roads and Maritime let you know we were carrying out geotechnical testing and investigations to gather information about ground conditions. The works were to be carried out on the Warringah Freeway corridor near Ernest Street, Cammeray and on the boundary between the Cammeray Golf Club and the Warringah Freeway corridor from Sunday, 2 September to Friday 28 September.

Due to weather conditions and technical reasons, we now need to amend the timing for works. Our works will now be between **Tuesday, 2 October and Monday, 15 October**.

We have included a map to show the location of the work.

Our work schedule

There are a number of geotechnical investigations to take place in this area:

- we will be on site within the Warringah Freeway for up to **four nights** between **8pm and 5am** from **Sunday, 7 October to Monday, 15 October**, weather permitting
- we will be carrying out works on the Cammeray Golf Course for up to **three days** between **7am and 5pm** from **Tuesday, 2 October to Friday 12 October**, weather permitting.

How will the work affect you?

Works will generally be for short durations and will be a low noise level when compared to existing background noise. We will make every effort to minimise noise by turning off machinery and vehicles when not in use.

Geotechnical testing involves drilling small diameter holes (about the size of an orange) to extract rock samples used for scientific testing and analysis. Day works will also involve non-intrusive equipment to measure the depth of rock.

Traffic changes

Some temporary traffic changes may apply to ensure the work zone is safe. Appropriate site controls will be in place including traffic controls if required. If traffic controls are required, please observe all signage and follow instructions of traffic controllers.

Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

If you have any questions please contact us on 1800 931 189 during office hours (8.30am to 5pm Monday to Friday) or whtbl@rms.nsw.gov.au. Thank you for your patience during this important work.
