

May 2017

Western Harbour Tunnel and Beaches Link – changed duration for geotechnical investigations from the week of 15 May 2017

The NSW Government is funding preferred route investigations including geotechnical testing for the Western Harbour Tunnel and Beaches Link.

Roads and Maritime Services carries out geotechnical testing to gather information about underground rock and soil conditions across a broad area. Data from this work will be used to inform the engineering design, final costings and a construction timeline.

A site identified by our geologists for test drilling is at the corner of Redman and MacMillan Streets, Seaforth (see map over the page). Previously you have been notified about this work scheduled to start from the week of 15 May 2017, however the work duration has changed and is expected to take around 13 days to complete, weather permitting.

The work will take place between **7am** and **6pm Monday to Friday** and between **8am** and **1pm on Saturday**. There will be no work at night on Sundays or on public holidays.

A temporary work site with safety fencing will be established to ensure community safety. When the work is completed, the hole will be filled in and the test site restored to its previous condition.

How will the work affect you?

There will be no disruptions to traffic flows on Redman and MacMillan Streets and appropriate site controls will be in place.

There may be some noise associated with this work. We will minimise disturbance to the local community and operate in an environmentally sensitive and sustainable manner.

The location of these tests does not indicate a possible alignment and the work is designed to gather data about rock strata and conditions deep below ground.

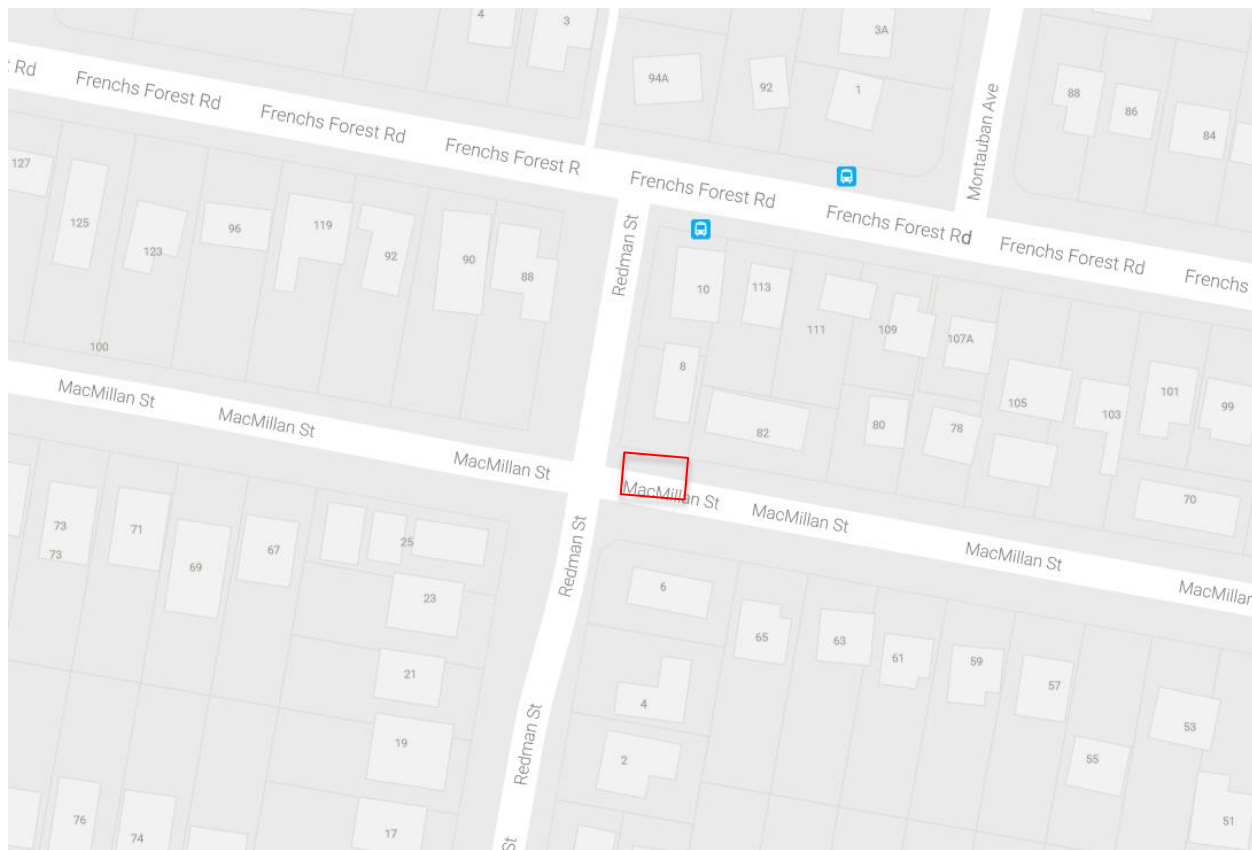

Geotechnical testing involves drilling small diameter holes (about the size of an orange) to extract rock samples used for scientific testing and analysis. Equipment will include a self-propelled drilling rig, support equipment as well as various hand tools. A fact sheet is enclosed with this letter.

Contact

If you have any questions please call our project team on 1800 789 297 during office hours (8.30am to 5pm Monday to Friday) or motorwaydevelopment@rms.nsw.gov.au. Thank you for your patience during this important work.
