

Western Harbour Tunnel and Beaches Link - utilities investigations from Tuesday 8 May 2018

The NSW Government is funding preferred route investigations including utilities investigations for the Western Harbour Tunnel and Beaches Link.

Roads and Maritime Services carries out utilities investigations to gather information about underground services and utilities. Data from this work will be used to inform the engineering design, final costings and a construction timeline.

A site identified for utilities investigation is on Donnelly Road, Willoughby. As part of this work potholing, vacuum truck excavation and lifting of services pit lids will need to occur. Work will start on **Tuesday 8 May 2018** and should finish on **Wednesday 9 May 2018**, weather and ground conditions permitting. The work will take place between **7am** and **5pm** on both days.

How will the work affect you?

Appropriate site controls will be in place including traffic controls. Where traffic controls are required, please observe all signage and follow instructions of traffic controllers.

There will be some noise associated with this work. We will minimise disturbance to the local community and operate in an environmentally sensitive and sustainable manner.

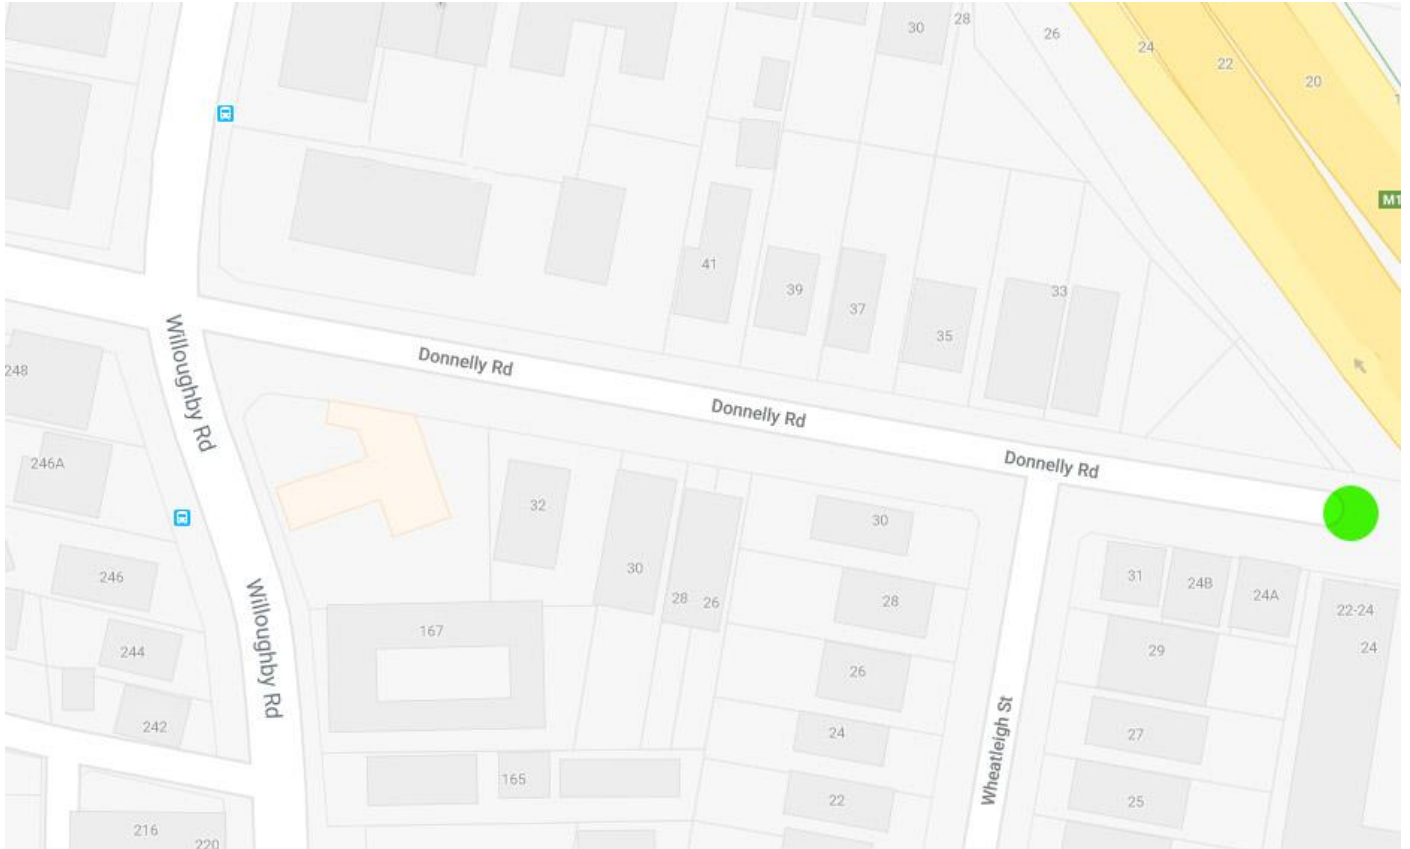

The location of these investigations does not indicate a possible alignment and the work is designed to gather data about services and utilities below ground.

Contact

If you have any questions please contact our project team on 1800 931 189 during office hours (8.30am to 5pm Monday to Friday) or whtbl@rms.nsw.gov.au. Thank you for your patience during this important work.

Work Area

Donnelly Road, Willoughby – utilities investigation site

Translating and Interpreting Service

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to telephone Burtons on 1800 631 531.
