

Work continuing at Woodville and Parramatta Roads, Granville and Holroyd

Project update - February 2022

The NSW Government is widening and upgrading the intersection of Woodville Road and Parramatta Road in Granville and Holroyd, to ease congestion, reduce travel times and improve safety on this section of Parramatta Road.

What's happened?

During November 2021 and February 2022, we have:

- Continued full-depth road pavement construction
- Installed new traffic control signals
- Relocated existing water pipes
- Commenced Intelligent Transport Systems (ITS) work
- Completed lane adjustments and temporary line marking.

What's happening next?

Between March and May 2022, our work will include:

- Complete asphaltting to northbound side and temporary line marking
- Complete remaining footpath and kerb on the northbound side
- Modify traffic signals to Woodville Road and Parramatta Road intersection, as well as Crescent Street intersection
- Construct the pavement on Woodville Road southbound
- Continue Intelligent Transport Systems (ITS) work.

How will the work affect you?

There will be temporary traffic changes during our work hours to ensure the work zone is safe. This may affect travel times. Please keep to speed limits and follow signs and traffic controllers' directions.

- Work will generate some high noise and our team will minimise impacts where possible, including completing noisier activities by midnight
- Access to driveways and buildings will be maintained at all times
- Minor traffic disruptions will have traffic control measures in place.
