

Transport Access Program

Merrylands Commuter Car Park

COMMUNITY NOTIFICATION

DECEMBER 2017

The Transport Access Program is a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure. Transport for NSW in conjunction with delivery partner AW Edwards is upgrading Merrylands Commuter Car Park to provide additional commuter parking.

Site establishment will commence on Wednesday, 13 December 2017 in preparation for the start of major construction and the commuter car park closure on Monday, 22 January 2018. Construction will occur for approximately 10 months. The project includes:

- additional levels to provide approximately 65 additional spaces including up to 6 new accessible parking spaces within the existing commuter car park adjacent to Merrylands Station and near the bus interchange, improving interchangeability between transport modes
- new lift and stairs at the existing commuter car park to improve accessibility to the station and the bus interchange
- approximately 20 at-grade 90-degree angle parking spaces along Railway Terrace, approximately 300 metres north-east of Merrylands Station

- installation of CCTV security cameras at the existing commuter car park to improve security.

Temporary loss of parking spaces

From Monday, 22 January 2018, Merrylands Commuter Car Park will be **CLOSED** for approximately 10 months while the additional levels are constructed.

5 parking spaces on the eastern side of the station on Railway Terrace will be converted to

3 accessible parking spaces for the duration of construction. Signage will be installed to notify users of these changes.

Please consider alternative public transport options or parking at nearby stations during this period.

We apologise for any inconvenience and thank you for your patience and cooperation during these important works.

Start of construction

Construction will start on **Wednesday, 13 December 2017**. The work in the upcoming months will include:

- installation of fencing along the rail corridor
- establishment of the site compound within the existing commuter car park
- decommissioning of utilities and other services within the existing commuter car park
- removal of light poles within the existing commuter car park
- commencement of demolition and excavation works within the existing commuter car park
- commencement of foundation works for the additional levels being constructed within the existing commuter car park.

Construction plant and equipment

Plant and equipment which may be used over the coming weeks includes:

- pile rigs
- excavators
- bobcats
- construction and delivery vehicles
- cranes
- hand and power tools, including circular saws, drills and screw guns.

Standard construction hours

Work will occur during standard construction hours which are **Monday to Friday 7am to 6pm and Saturday 8am to 1pm**. Additional notification of any works outside of these hours will be provided to the community prior to those works commencing.

Every effort will be made to minimise the noise impact on nearby residents and businesses. We apologise for any inconvenience and thank you for your patience during this important work. We will issue regular community notifications throughout the duration of the project to keep the community informed about the progress of works.
