

Transport Access Program

Edgecliff Station Upgrade

COMMUNITY NOTIFICATION

DECEMBER - JANUARY 2018

The Transport Access Program is a Transport for NSW initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

Image: Artists impression of lift on concourse, subject to detailed design.

Project update

Transport for NSW is upgrading Edgecliff Station to make it more user-friendly and easier for everyone to access. The pedestrian pathway on the bus interchange will be completed by the end of December, with the southern access stairs re-opening before Christmas. In January, construction will continue on the platform to concourse lift and escalators, and the bus interchange.

Escalators 1 and 2 (closest to the ticket gates)

Removal of the old escalators 1 and 2 has been completed, with the delivery of the new escalators occurring at nights. Installation works are to begin in January, and these activities are not expected to generate noise audible beyond the station building.

Bus interchange

Demolition to make way for the lift to the concourse is nearing completion with the shaft installation occurring in the new year period. Lift installation will take place throughout January. Construction works will also continue in the bus island area throughout January, including the installation of new wind break frames.

For more information call 1800 684 490,

Email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/projects-tap

For urgent enquiries or complaints regarding construction activities, please call 24 hours 1800 775 465

Standard construction hours

Standard working hours are **7am to 6pm, Monday to Friday**, and **8am to 1pm, Saturday**. Works during these hours will occur behind the hoardings or temporary fencing. In consultation with local businesses and residents, we will aim to complete all major noisy works during these hours, including most material movements. Suitable respite periods and noise reduction methods will be used where possible.

Out of hours works

Night works will continue within station areas between **8pm and 5am, Sunday through Thursday** throughout the month of January. Some deliveries are restricted to these night periods via New McLean St. We will endeavour to limit the impact on surrounding residents through employing a range of noise mitigation measures including respite periods, noise monitoring, turning vehicles off where possible and acoustic barriers.

Date	Bus Interchange		Station Platform & Concourse	
	Time	Work Description	Time	Work Description
27th to 30th December	2000 - 0500	Lift shaft installation and painting works to the lift shaft.	2000 - 0500	No works
	These works are not expected to be noisy outside of the station building.		N/A	
2nd to 5th January	2000 - 0500	Lift shaft construction including cladding and glazing.	2000 - 0500	General building works.
	These works are not expected to be noisy outside of the station building.		These works are not expected to be noisy outside of the station building.	
6th to 12th January	2000 - 0500	Delivery of new lift materials to bus interchange using franna crane.	2000 - 0500	New escalator parts to be delivered via New McLean Street.
	There will be some additional vehicles during this period, including a small crane. These works may have increased noise levels.		There will be some additional vehicles during this period. These works may have slightly increased noise levels.
