Have your say on the proposed improvements to Glenbrook Station. Key Features include:

- a new lift to provide access to the existing footbridge
- a new, accessible kiss-and-ride area on Burfitt Parade
- upgrades to CCTV, wayfinding and lighting to improve safety and security
- new ambulant and family bathrooms
- new station entrance and accessible pathways connecting the Eastern car park on Burfitt Parade to the station
- upgrades to existing platform surfaces and footpaths around the station precinct to improve accessibility.

- Associate Director, Environmental Impact Assessment
  Transport for NSW
  Locked Bag 6501
  St Leonards NSW 2065

Please provide your feedback by 5pm Monday 26 November 2018.
Your feedback will help Transport for NSW understand what is important to customers and the community.

Come and meet the Transport for NSW project team
Between 4pm and 6pm on Thursday 15 November and Tuesday 20 November, representatives from the Transport for NSW project team will be located at Glenbrook Station to answer any questions you may have on the project.

If you are unable to attend and would like to talk with the team please call the Project Infoline on 1800 684 490 or email projects@transport.nsw.gov.au

Transport for NSW develops initial concept design options for the project including identification and consideration of environmental constraints, risks and opportunities.

Transport for NSW assesses and responds to feedback and prepares a submissions report/determination report with proposed conditions to minimise environmental impacts.

Transport for NSW determines the Proposal.
Conditions of Approval made available on Transport for NSW website.

Construction commences subject to compliance with conditions.

Transport for NSW prepares a Review of Environmental Factors (REF) for public display and invites submissions.

We are here:
Transport for NSW proposes to relocate rail access to Glenbrook Station.

Next steps
Key elements of the Proposal

Review of Environmental Factors
The Review of Environmental Factors is a planning document outlining proposed works, potential impacts and mitigation measures. The document includes comprehensive assessments on the existing environment and expected impacts of the project including: Traffic and Transport, Biodiversity, Visual Impact, Noise and Vibration, and Heritage.
