Power Supply Upgrade – Lee Street Substation December 2018

In planning for Tomorrow’s Sydney, a new substation has been built at Lee Street, west of Central Station. This project has been delivered as part of the Power Supply Upgrade Program. This program is designed to meet expected power requirements of the future rail network and new fleet of air-conditioned trains.

Project completion December 2018

The Lee Street Substation project will be completed in December.

The new substation is now fully commissioned, and we will be removing our site sheds in December.

Thank you to our neighbours

Transport for NSW would like to extend a sincere thank you to the neighbouring residents and business owners for their patience and understanding throughout the construction period.

Work times in December

Standard construction hours
7am to 6pm Monday to Friday and 8am to 1pm on Saturdays.

Extended work times in December
From 2am Saturday 1 December to 11pm Sunday 2 December, we will be working during a scheduled Sydney Trains trackwork weekend to ensure the safety of staff and rail customers.

Trains services will be affected during weekend works. Please contact Transport Info on 131 500 or visit transportnsw.info for more information about replacement bus services.

How will this work affect you?

Some of this work may be noisy at times however we will take every step to minimise noise, such as switching off equipment when not in use. Light will be directed away from surrounding streets where possible to minimise impact on the community.

Contact information

We apologise for any disruption or inconvenience caused during this important work. For general project enquiries, please call 1800 684 490 or email projects@transport.nsw.gov.au.

If you have any urgent enquiries or complaints during these works, please contact the 24-hour Construction Response Line on 1800 775 465.

For more information on CBD changes, visit mysydneycbd.nsw.gov.au.
