

Transport Access Program

Merrylands Commuter Car Park

COMMUNITY NOTIFICATION

April 2018

The Transport Access Program is a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure. Transport for NSW in conjunction with delivery partner AW Edwards is improving commuter parking at Merrylands Station by constructing over 85 new spaces across two locations.

Work to commence on additional commuter car parking at Railway Terrace (adjacent to Mombri Street)

Start of construction works at Railway Terrace

Construction will commence in the coming weeks. Construction works will occur for approximately 12 weeks.

Work at this location includes:

- The provision of 23 at-grade, 90-degree angle parking spaces along Railway Terrace, approximately 350 metres north-east of Merrylands Station.
- Additional street lighting.

- Re-alignment of the pedestrian footpath.

Over the coming weeks, construction activities at this site will include the commencement of civil works, in ground works, asphaltting, and the installation of services.

Transport for NSW in conjunction with delivery partner AW Edwards is also delivering additional commuter parking at Terminal Place. Major construction works at this site, including closure of the existing facilities, commenced in January 2018 and will continue for **approximately 10 months.**

Current site activities

Current activities at the **Terminal Place site** include:

- Construction of formwork for the suspended concrete structure and installation of steel reinforcement.
- Placement of concrete for the car park structure.
- Installation and modification of site scaffolding.

In the coming months, plant and equipment which may be used at the **Railway Terrace site** includes:

- excavators
- telehandler
- concrete trucks and cranes
- construction and delivery vehicles
- hand and power tools, including circular saws, drills and screw guns.

Upcoming out of hours works

A concrete pour at the **Terminal Place site** is planned to be completed on **Thursday, 19th April 2018.**

Due to the size of the pour, it is estimated that **works may continue until approximately 11pm** on this day. Activities occurring on site after 6pm will include finishing of the concrete slabs and the pack up of equipment.

Equipment to be used includes concrete pump and trucks, motorised power trowel and handheld tools. You may notice workers on site during this time. **It is not anticipated that significant noise will be generated by these works**

Standard construction hours

Work across both sites will occur during standard construction hours, which are **Monday to Friday 7am to 6pm and Saturday 8am to 1pm**. Additional notification of any works outside of these hours will be provided to the community prior to those works commencing.

Every effort will be made to minimise the noise impact on nearby residents and businesses. We apologise for any inconvenience and thank you for your patience during this important work. We will issue regular community notifications throughout the duration of the project to keep the community informed about the progress of works.
