

# Power Supply Upgrade Program

## Warrawee

### Construction activities in your area

Transport for NSW is upgrading the electrical infrastructure within the rail corridor as part of the Power Supply Upgrade Program. This program is designed to meet expected power requirements for Sydney's future rail network and new fleet of air-conditioned trains.

### Upcoming night work in September

We will be working on the rail line at Warrawee Station, between Bangalla Street and Brentwood Avenue from **10pm Thursday 27 September to 4am Friday 28 September**. Work will involve the adjustment of overhead wire along the rail corridor.

To ensure the safety of our customers and staff, this work will be completed during a scheduled Sydney Trains track maintenance period. Train services will be affected during the works. Please contact Transport Info on **131 500** or visit **transport.nsw.info** for more information about replacement bus services.

### Upcoming work in October

Work activities will include the installation of cable protection in the rail corridor at Warrawee Substation. All work will take place within the rail corridor and during standard construction hours, **7am to 6pm Monday to Friday and 8am to 1pm Saturdays**.

### What you may notice

#### Access to the rail corridor

Workers and vehicles will access the rail corridor through the gates at Brentwood Avenue, Warrawee and Hornsby Street, Hornsby.

#### Construction equipment

Equipment to be used includes a hi-rail vehicle (similar to a cherry picker), rattle guns, work vehicles and power tools.

This work may be noisy, but we will also take every possible step to reduce noise, such as switching off machinery when not in use and monitoring noise.

### Keeping the community informed

If you would like to speak with the project team about these works, please contact us via the details provided below. Thank you for your understanding during this work.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
