

Beverly Hills Commuter Car Park

Transport Access Program

The NSW Government is improving commuter parking at Beverly Hills Station

Investigations are currently underway to develop an early concept design for a new multi-storey car park near Beverly Hills Station, off Edgbaston Road.

This project is part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

The early concept design includes adding four levels to the existing car park off Edgbaston Road providing around 250 timed and commuter car spaces.

Learn more about the project

Members of the project team will be available to answer any questions you have about the early concept at an information stall on **Saturday 3 November** at Tooronga Terrace, between the station and IGA. Drop in any time between 10 am and 12 midday to learn more about the project.

If you are unable to attend, but would like to speak with the project team please call 1800 684 490 or email projects@transport.nsw.gov.au.

Visit transport.nsw.gov.au/projects/current-projects/beverly-hills-commuter-car-park for more information.

Next steps

Early feedback will help Transport for NSW progress the concept plan. The plans will be available for community consultation in early 2019. We will keep the community informed about how to view the plans and how to have your say.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
